IN NEBRASKA.

People Killed and Dozens Seriously Injured.

City, Neb., May 18.—A cyclone this section about 2 o'clock last and swept everything in its path, a number of people and leaving seriously injured. It touched the southern portion of this place, down the canning factory, unroof- th the Missouri Pacific and Burling- pots, and turned over 20 freight one of which was a stramp, who eriously hurt.

on's Park, which yesterday was the most picturesque spots in the y, is to-day a mass of uprooted oken trees, while not a single build- left standing. Hahn's brewery, was located across the Nemaha from the park, is a total wreck. ckham's brewery and ice houses. Sev- l dwellings were partly wrecked. All telegraph wires were prostrated and s City was cut off from the outside rld until this morning. The Missouri fic company suffered considerable Reports from Salem are to the ef- t that some damage was done there.

Large Loss in Nahant.

gna, Mass., May 18.—The residence tion of the town of Nahant was this ernoon the scene of a fire which des- yed five valuable summer residences. ating a property loss approximating 000. Among those destroyed was the rgely cottage, where the poet spent summers for many years and where "Bells of Lynn," was composed and written.

Many Fruit Trees Injured.

Detroit, Mich., May 18.—Reports from many sections of Michigan show that the wind storm which swept over the State yesterday did much damage, especially to fruit trees. In Shiawassee county, it is estimated that half of the fruit crop was destroyed. Shade trees suffered severely, and in some instances buildings were unroofed. Only one person was injured so far as learned.

FIFTY-FOURTH CONGRESS.

Yesterday's Proceedings in the Senate and House.

Washington, May 18.—The resolution for the appointment of a select committee to investigate last year's election in the State of Alabama and to report whether a Republican form of government exists in that State, came up to-day in the Senate. Mr. Allen of Nebraska making a motion that the Senate proceed to its consideration. There were only six votes in favor of the motion—two from Populists, Senators Allen and Peffer, and four from Republican Senators, Chandler, Frye, Gallinger and Morrill. The votes against it numbered 41.

Mr. Allen saw in the result of the vote a proof of the insincerity of Republican Senators, but Mr. Sherman of Ohio justified himself and his Republican colleagues on the ground that the question was one to come before the Senate at the next session, not at this! and that as to the general election in Alabama, whether fraudulent or not, the Senate had no right to inquire into it, unless it affects the election of a Senator. Mr. Chandler of New Hampshire, who voted for the motion, said that under other circumstances when there was no appropriation directly before the Senate the resolution would receive the support of a large number, if not all the Senators on the Republican side.

The House bill to regulate the price of gas in the District of Columbia was discussed in the Senate to-day for several hours, the question being whether the House bill fixing the price at a dollar per thousand feet, or the Senate district committee amendment (making the reduction a graduated one from $1.15 down) should be agreed to.

The committee amendment prevailed—31 to 11 and the bill as amended was passed.

The Senate at 6:10 adjourned until tomorrow.

HOUSE.

Washington, May 18.—While this was suspension day in the House, the greater part of the session was expended in the passage of 25 pension bills reported from Friday night's session and to passing bills under unanimous consent, including the following:

Incorporation the Society of Colonial Dames; authorizing the loan or donation of endemned cannn to Grand Army posts; establishing Pueblo, Durango and Leadville as customs ports of delivery; to compel the attendance of witnesses before local land offices.

Under suspension of the rules bills were passed to expedite the delivery of imported merchandise by allowing the appraisement on the wharf and delivery to an express company or other bonded carrier of packages valued at not over $200, and not over 100 pounds in weight, imported in American vessels; to allow the bottling of spirits in bonded warehouses; to provide for the registration by the patent office of trade marks on bottles, barrels and other receptacles used in interstate and foreign commerce.

An order reported from the Committee on Rules setting apart the remainder of the session to-day and until further notice to-morrow, for the consideration of immigration bills, provoked so much opposition on the ground that the time was too short to consider bills of such national importance that it was amended so as to include all of the session Tuesday and until 4 o'clock Wednesday, and as thus amended was adopted without entering upon the execution of this order. The House at 5:10 adjourned until tomorrow.

CHINESE DEPORTATION.

Section of the Exclusion Act Construed by the Supreme Court.

Washington, May 18.—The fourth section of the Chinese exclusion act of 1892 was construed by the Supreme Court today, the opinion being read by Justice Shiras. The question involved was whether or not a Chinese person, adjudged not entitled to be within the limits of the United States may be sentenced to imprisonment for a year, at hard labor and at the expiration of that term deported by a United States commissioner, or whether it must be done in accordance with law.

Wing Wang and other Chinese arrested in Michigan under the law were thus sentenced by the United States commissioner, before whom they were examined and they appealed to the Federal Court for the eastern district of Michigan for release on writs of habeas corpus. That court refused to release them and they came to the Supreme Court. Justice Shiras said they could not be disposed of in that manner and the judgment of the Circuit Court was reversed without prejudice to the right to hold and deport the appellants in accordance with the law.

MORE ARMENIAN MASSACRES.

Reports Estimate 8,000 People Killed at Oorfa.

London, May 18.—Lengthy and sensational details of the massacre of Armenians at Oorfa, represent it as entirely without the parallel at Sasoun. It is estimated that 8,000 persons were killed at Oorfa, of which number, nearly 3,000 perished while seeking refuge in the Cathedral, which was set on fire by the Turks. It appears that the attack was deliberately planned and was effected with the connivance of officials, who were acting under orders from Constantinople.

West Gloucester.

Gloucester, Mass., May 18.—The forest fire at West Gloucester and Magnolia is still burning and a strong westerly wind is driving it toward this city. The fire department has been called out and Chief Lane and his men have gone with apparatus to try to check the flames as they have got very near several dwellings at Fend Hill and Western avenue. Great damage has been done to timber lands.

Fortifications Bill.

Washington, May 18.—The fortifications bill was reported to the Senate this afternoon by Mr. Perkins. The estimates for 1896, amounted to $8,095,165. The House bill carried $5,815,657, to which the Senate added $1,976,631, making the total reported to the Senate $10,792,288. The appropriation for the current fiscal year is only $1,904,[illegible].

Separate Car Law.

Washington, May 18.—The Supreme Court to-day in an opinion rendered by Justice Brown, sustained the constitutionality of the law of Louisiana, requiring railroads of the State to provide separate cars for white and colored passengers.

Mr. Justice Harlan announced a very rigorous dissent.

Methodist Conference.

Cleveland, O., May 18.—No result was reached in to-day's balloting and the conference went over till to-morrow with conditions unchanged.

DISASTROUS CONFLAGRATIONS.

Block of Commercial Buildings Destroyed in Washington.

A NUMBER OF FIREMEN KILLED.

One of the Worst Calamities that Has Ever Visited Washington—Property Loss Comparatively Small—New England Fires.

Washington, D. C., May 18.—Fire swept away a whole block of commercial building opposite the Smithsonian Institute soon after 8 o'clock this evening. The lives of at least three firemen were crushed out by falling walls. The loss will exceed $200,000.

The buildings covered the block adjoining the center market constitute principally the entire commission and wholesale produce business of Washington, and while not of great value their contents burned so fiercely that a great portion of the residents from all parts of the city were attracted to the scene of the conflagration.

From 7 to 8 o'clock the district was visited by one of the most terrific thunderstorms in years and it is thought lightning, traveling on telegraph wires, entered a postal telegraph sub-station and started the flames, which rapidly spread through the highly inflammable materials in the stores fronting on Louisiana avenue, Ninth, Tenth and D streets. In a few minutes, under general alarm orders, the entire fire department commenced its efforts to check the fire's spread, but exploding barrels of kerosene and gasoline drove them off and led them to direct their energies to preventing the flames from reaching the streets to the netchboring squares.

While the firemen of No. 8 engine were working a hose through one of the old buildings, the roof fell without warning, burying them in the ruins. Alarming reports at once spread that a dozen men were killed. The wrecked building at once began burning furiously and any attempt at rescue was beyond question. Not until an hour later had the flames sufficiently subsided at this point for the firemen to begin clearing away the debris. Then three men, Joe Mulhall, McDonaldson and Kennedy, still alive, but scorched and crushed beyond all hope of recovery, were taken out and removed to the Providence hospital.

At midnight the firemen came upon another body. Others are still believed to be in the ruins and are being searched for. The buildings on the D street side, which were entirely destroyed, were occupied by Edward Adams, commission merchant; Taylor Wade, dealer in butter and eggs; Frederick Fisher, J. A. Davis & Son, W. S. Anderson, two stores; Brown Bros., W. O. Shrieves, Mathewson & Co., and Wm. Semmes.

Jewett Crowley, who keeps a small restaurant midway of the block, lost everything and barely rescued his family alive.

Later information is to the effect that Firemen Giles and Griffin are dead, and that Firemen Mulhall, McElroy, Keppler and Kennedy are dangerously and perhaps fatally injured. Four others are known to be in the ruins and several others are missing and search is being continued late into the night for them.

This fire is one of the worst calamities that has ever visited Washington and is the only one of its kind since the notorious Knox fire of about two years ago. The buildings that were burned were comparatively of small value, though quite a whole block of them were swept out of existence. The full extent of the calamities that attended the conflagration was not known until a late hour and the neighborhood surrounding the scene was thronged up to a long time after midnight by excited and sympathizing groups of citizens, many of whom were friends and neighbors of the unfortunate men burned.

The Benzinger auction house for horses and equipages, was also destroyed. It is not possible to get an accurate list of the individual losses to-night.

Emerson's Estate Destroyed.

Concord, Mass., May 18.—A fire started this noon in the woods surrounding Lake Walden and has burned over more than 1,000 acres of wood land and destroyed hundreds of cords of wood.

The exrome drouth of months and the high wind of to-day made it impossible to do much more than protect buildings that were located near the woods, many of which were in danger. Some of the principal losses in Concord are the estate of Ralph Waldo Emerson and George R. Wood.

In Connecticut.

Winsted, Conn., May 18.—Forest fires have done $30,000 damages and are still raging in Colbrook, Capinville, Lakeville, New Hartford and Torrington. One hundred men fought the flames in Capinville yesterday, and "Ravine Hurst," a summer hotel, barely escaped destruction.

ITALIAN CHAMBER OF DEPUTIES.

Excitement Over Documents Relating to Impeachment of Crispi.

Rome, May 18.—In the Chamber of Deputies to-day Signor Cavolotti demanded that the papers bearing upon his impeachment of Signor Crispi, late Prime Minister, for the recent disasters in the campaign in Abyssinia, be tabled.

Signor Costa, Minister of Justice, deposited on the table of the Chamber the Judge's decree milling up the matter of some of the charges and incompetence as to others. Signor Costa said that the documents relating to the decree ought to remain secret and expressed the desire of the government to terminate all recrimination concerning the past.

A scene of excitement ensued. Signor Cavolotti justified the conduct of the Radicals in the matter and insisted that the date be fixed for debate on his motion. He demanded also that the same procedure be observed in this case as was pursued by the Crispi government in regard to the Signor Giolitti, formerly Premier and Minister of the Interior.

The chamber refused Signor Cavolotti's demands, and adopted a motion offered by Premier Di Rudinì proposing to postpone the discussion indefinitely, or at least that it should not be taken up until after the discussion of the Budget.

IN THE REICHSTAG.

Supplementary Military Credits Were Discussed.

Berlin, May 18.—In the Reichstag today Dr. Lieber, leader of the Centrist party, asked the government when the bill to reform the law governing military trials would be placed upon the table of the Reichstag. Prince Von Hohenlohe, the Imperial Chancellor, said that the government hoped to be able to do so in the course of the present year. This announcement was received with general cheering.

The supplementary military credits for the recommendation of the quarter battalions were then discussed. The galleries were crowded with visitors in anticipation of a lively debate.

Herr Richter, Radical, opposed the government's demand for the supplementary credits for the purpose stated, upon financial grounds. Gen. Bronsart Von Schellendorf, Imperial Minister of war, justified the demand for many reasons, and declared that the Emperor had personally worked out the details of the quarter battalions. Dr. Lieber criticized the government's policy in the matter, but did not say what decision the Centrists had arrived at in regard to the supporting or opposing the credits.

Gen. Bronsart Von Schellendorf made a protest against mixing the question of the supplementary credits demanded with that of the two years' term of service. The present term of service, the war minister said, would not be premature to say.

Dr. Von Benningsen, National Liberal, supported the demand for the credits and the matter will be doubtless referred to a committee of the Reichstag.

LOOKING FOR MINES.

Interest Shown by Foreigners is Awakening Easterners.

New York, May 18.—Interest in American mines still continues in European money which was intended for South Africa will, on account of trouble in that country, undoubtedly find its way to America.

Among the mining men now in New York who are representing various European syndicates are: Hamilton Smith, Bates Dorsey and Charles [illegible] George Labouglise, representing a French syndicate, will leave Paris [illegible] or ten days for New York, and then for the mining districts.

While this interest in American mines is apparent on the part of Europeans the financial men of New York are [illegible] ing to the front. Cripple Creek property was sold to a New York syndicate during the past week, and negotiations for several other properties are said to be rapidly drawing to a conclusion. The closing of the New York Mining Exchange which was carried on for its brief existence apparently for the purpose of satisfying personal aims, has not caused a ripple in the mining world. Already steps are being taken by strong men, principally Wall-street bankers and brokers, to organize a new exchange on a very different basis. The machinery has been started and a very strong institution is expected to be the result.

The former nondescript American stock exchange is also bidding for the patronage of mining men, and its officers have changed the title of their organization to the Mining and Industrial Exchange. If the proposed plans are consummated there will probably be two mining exchanges in this city within a short time.

RELIGIOUS LIBERTY.

Cardinal Gibbons's Statement Regarding Catholic Politics.

Washington, May 18.—Through Rev. Dr. Stafford of St. Patrick's church, this city, a prominent Republican who held a foreign mission under President Harrison, addressed several questions to Cardinal Gibbons relative to the recent denials of religious liberty and attacks of the A. P. A. on the Catholic citizens of the country. The Cardinal sent the following reply:

"Baltimore, Md., May 17, 1896.—My Dear Sir: It is the duty of the leaders of political parties to express their disapproval without any equivocation on the principles of religious freedom which underlie our constitution.

"Catholics are devoted to both the great political parties of the country, and each individual is left entirely to his own conscience. We are proud to say that in the long history of the government of the United States, the great Catholic church has never used or perverted its acknowledged power by seeking to make politics subserve its own advancement.

"Moreover, it is our proud boast that we have never interfered with the civil and political rights of any who differ from us in religion. We demand the same rights for ourselves, and nothing more, and will be content with nothing less.

"Not only is it the duty of all parties distinctively to set their faces against the false and unamerican principles thrust forward of late, but much as I would regret the entire identification of any religious body as such with any political party I am convinced that the members of a religious body, whose rights, civil and religious, are attacked, will naturally and unanimously espouse the cause of the party which has the courage openly to avow the principles of the civil and religious liberty according to the constitution. Patience is a virtue. But it is not the only virtue. When pushed too far it may degenerate into pusillanimity.

"Yours faithfully,

"JAMES CARDINAL GIBBONS."

SINGER PATENTS.

Long Pending Patent Cases Decided by the Supreme Court.

Washington, May 18.—The long pending cases of the Singer Manufacturing company vs. the June Manufacturing company and Burt, were decided in the Supreme Court of the United States to-day.

The result was a practical victory for the Singer company, but one of the leading contestants of the company's counsel was overthrown by the decision, which was announced by Justice White. He stated that where, under the life of a patent, a name became the generic designation of the thing made, at the end of the life of the patent, the name with the article patented became the property of the public and its use could not be restrained by injunctions.

The court further held, however, that the right did not exist to use the name indiscriminately or without qualification, so that the public would be deceived by its use into the belief that the thing manufactured was different from what it really was or that it was made by a person of reputation other than the real maker. In these cases the name and initial design used by the Singer company, both being involved were not so qualified, and the judgment of the Circuit Court of the northern district of Illinois, in favor of the June company and Burt was reversed with decision to modify the decree in accordance with the opinion with the Supreme Court of the United States.

Accused of Granting Rebates.

Chicago, May 18.—The cases of John W. Rinehart, ex-president, and John A. Hanley, ex-traffic manager of the Santa Fe Railroad company, came up before Judge Grosscup to-day for alleged violation of the interstate commerce law and were postponed until Thursday next.

The ex-officials are accused of having granted rebates to certain favored patrons of the road in 1892. The postponement was had at the request of the prosecution.

Pecos Valley Railroad.

Chicago, May 18.—The Pecos Valley company, which owns large tracts of land in that valley and operates a railroad from Pecos to the Texas Pacific road, on the Pecos river, has decided to extend its line 200 miles south so as to connect with the Santa Fe at Washburn, on the San Hanke branch. A favorable traffic arrangement has been made with the Santa Fe officials who believe the new line will prove a valuable factor to their system.

Resulted in a Draw.

Boston, May 18.—The game of chess between Barry and Showalter this evening resulted in a draw after 21 moves.

By the will of Mr. Ephraim Howe, who died April 3, Tufts College is to receive $10,000, St. Lawrence University, Canton, N. Y., will receive $1,000 for a scholarship in Gimlin and Faulkner, and the Aspen captain will put in his best battery, so that there will not be such a [illegible] game as yesterday, and the game will be more interesting.

The Colorado Springs management has been playing its hard luck, and it depends on the public whether they will be able to keep up the team. They have good men now, and will win more games than heretofore; and if the team is encouraged by good crowds, there will be a good season yet.

A large turn-out to-day and Saturday will help the management to decide to go ahead and play the season out. The game to-day will certainly be closer and better played than yesterday's, and in the interest of the future of the game in this city, it is hoped that the attendance may be good.

Following is the score of yesterday's game:

COLORADO SPRINGS.

Name.	R	BH	SH	PO	A	E
Gatewood, 2d.	4	3	1	4	3	3
Keyes, 3d.	4	0	0	1	0	0
Gimlin, 1st	3	3	0	7	3	0
Sedden, s. s.	4	2	0	3	1	1
Vogelbaugh, l. f.	4	3	1	1	0	1
Faulkner, c. f.	3	2	0	0	0	1
Bess, c.	4	2	3	0	1	0
Hahn, r. f.	2	2	2	1	0	1
Kimmel, p.	3	3	1	6	3	0
Totals	31	27	8	27	10	7

ASPEN.

Name.	R	BH	SH	PO	A	E
Howe, p.	4	3	0	3	4	0
Dorman, s. s.	4	3	0	0	1	1
Harkness, 3d.	4	3	0	2	1	1
McIntosh, c.	2	2	0	3	1	1
McHugh, l. f.	0	4	0	4	0	1
Evans, c.	1	1	0	1	0	1
Lowe, 1st.	1	0	0	10	0	1
Kidder, 2d.	2	0	0	2	2	0
Manley, p.	2	0	0	2	0	2
Totals	20	16	0	27	9	8

Earned Runs—Colorado Springs, 11; Aspen, 6.

Two-base Hits—Gimlin, 3; Faulkner, 2; Gatewood, Sedton, Bess, Evans, Howe.

Three-base Hit—Harkness.

Stolen Bases—Springs, 11; Aspen, 2.

Double Plays—Springs, 2; Aspen, 1.

Bases on Balls—Off Kimmel, 7; off Howe, 4.

Struck Out—By Kimmel, 6; by Howe, 2.

Passed Balls—Evans, 2.

Umpire—Harry Dennis.

To-day's Game.

At Athletic park to-day the Aspens and Colorado Springs teams will play again. The game will be called at the usual hour and the teams promise to make it interesting. The line-up will be as follows:

Springs.	Position.	Aspen.
Gatewood	Second Base	Harkness.
Keys	Third Base	Howe.
Gimlin	Pitcher	Kidder.
Sedden	Short Stop	Dorman.
Vogelbaugh	Left Field	McHugh.
Faulkner	Catcher	Evans.
Ross	First Base	Lowe.
Hahn	Center Field	Meinecke.
Kimmel	Right Field	Manley.

NATIONAL LEAGUE.

Louisville-Washington.

Louisville, May 18.—To-day's game was long and tedious. Treadway's three errors resulted [illegible] and gave Washington the game. Attendance, 1,200. Score: Louisville, 8; Washington, 5.

Cleveland-Baltimore.

Cleveland, May 18.—Cleveland won one of the most exciting games of the season from Baltimore to-day. The game abounded with sharp fielding plays and magnificent base running. Tebeau's home run in the first went to [illegible] fence and he scored one ma[illegible] of him. [illegible] Jennings's work at short was [illegible]. Score: Cleveland, 4; Baltimore, 3.

Cincinnati-Philadelphia.

Cincinnati, May 18.—Foreman pitched an excellent game and had almost faultless support. Miller's batting was the feature. Score: Cincinnati, 9; Philadelphia, 5.

Chicago-New York.

Chicago, May 18.—The New Yorks could do nothing with Terry. The Colts stole bases as they pleased and played an errorless game, outclassing the visitors at all points. The score: Chicago, 15; New York, 2.

St. Louis-Boston.

St. Louis, May 18.—The Bostons got but one hit off Hart up to the eighth inning, when they combined two hits with errors by the Browns and won the game. Score: St. Louis, 2; Boston, 3.

IVES WAS DEFEATED.

Garnier Won the First in the Chicago Billiard Match.

Chicago, May 18.—The first of the series of six games to be played by Frank Ives, Jacob Schaefer and Albert Garnier at billiards was played to-night in Central Music hall between the Napoleon of the game and the Belgium expert. Ives was badly beaten. His only explanation was he "could not play," and that his cue was sticky at the outset of the game. Garnier was put on the 300 mark, while Ives and the Wizard expected to score 500 against him or lose.

These odds did not appear to be equitable in to-night's contest as Ives was beaten on even terms, 300 to 27. The foreigner was given plenty of applause from the few hundred people present. The game was more difficult than those played in the East—18-inch balk line, one shot in balk and one in the anchor box. Such restrictions made it necessary to scatter the balls as soon as brought together, except in open table billiards. George Siler was referee. The score: Garnier, 300; high run, 53; average, 11 3-27. Ives, 27; high run, 31; average 11.

World's Pigeon Record.

Detroit, Mich., May 18.—A Detroit bird yesterday broke the world's 300 mile homing pigeon record. Seventy-five pigeons were liberated at Sidney, Ill., yesterday and one of them, a three-year-old bird, belonging to Fred Ruoff, made the distance, 300 miles in four hours and 54 minutes, the average rate of speed being 1,532 yards per minute, beating the record by 146 yards per minute. Another of the birds belonging to Bob Shemansky of this city also broke the record, arriving in four hours, 52 minutes and 28 seconds.

Syndenham Cricket Match.

London, May 18.—In the cricket match at Syndenham to-day between the English team and the Australian eleven, the first inning resulted in the Englishmen scoring 114 and the Australians 108, for four wickets.

Refused to Surrender a Swindler.

New York, May 18.—District Attorney Fellows to-day received a dispatch from the State Department at Washington, stating that a cablegram had been received from United States Consul General Williams at Havana, saying that the Spanish authorities there had refused to surrender to this government Mariel Martin, alias Manuel Gonzales Mendoza, who was wanted in this city for swindling August Belmont & Co. out of $34,000 by a forged draft. Whether the Spanish authorities were moved to their decision by the sympathy the American people have shown for the Cuban patriots is a matter of conjecture.

Filed Trust Deeds.

Lansing, Mich., May 18.—E. Dement & Sons, who operate one of the largest implement and stove manufacturing concerns in the world, this afternoon filed two trust deeds aggregating $200,000 to secure their creditors. The concern employs 600 hands, and will not suspend operations. The embarrassment is only temporary.

WITH THE CITY FATHERS.

Regular Meeting of the City Council Held Last Evening.

COMMITTEE MATTERS REFERRED

An Addition to the City on the Northeast Was Accepted—A Plat of the Land South of Town Submitted by the Colorado Springs Co.

At the regular meeting of the city council last evening all members were present excepting the mayor and Alderman Barnett. The president of the council presided.

J. L. Nelson, Thomas Ord and others petitioned that fifteen feet on Shook's run at Bijou street be vacated. They agree to keep trees alive there if it is done. Referred to the street committee.

The petition of P. P. Rollins for a liquor license was referred to the city attorney for approval as to form.

A number of residents of Hillside addition petitioned for a new line of water pipe. Referred to the water committee.

The matter of additional water pipe in the northeast part of town was referred to the water committee with power to act.

In the matter of certain water pipe for the North End, referred to the water committee to report.

The Colorado Springs company submitted a plat of South Colorado Springs addition to the city. It takes in land south of the Rio Grande tracks not heretofore platted.

Vernon Heights addition, the plat of which was submitted at the last meeting, was accepted. This takes in land on the hill east of the Santa Fe road north of Monument street. The plat was submitted by A. L. Lawton and others.

There was only one bill on hand for repair work at Lake Moraine and upon motion of Alderman McJohnston it was not opened. Upon motion the matter of doing the work was referred to the water committee with power to act.

Alderman Green introduced an ordinance prohibiting the keeping of kerosene, gasoline, etc., in greater quantities than 10 gallons.

Upon motion of Alderman St. John the fire department committee was given power to buy a lot in the North End for the hose house. The committee has been having a hard time to secure one. People who own land up there demand an exorbitant price when they learn that the city wants the land, and the committee declines to pay more than others.

The matter of a bridge on South El Paso street was referred to the street committee.

Upon motion a committee was appointed to investigate whether a stone walk shall be placed in front of Mr. Hall's lot on Cucharas street.

The president appointed Watson McIntire and Green as the committee.

The council then adjourned.

Arrested by His Tailor.

Several months ago a young man named L. H. G. McClintock struck the city and began to spend money like water. He came with letters to well-known people and was soon moving in the best society circles. He had the reputation of having money to burn, and soon had plenty of debts. On Sunday it was rumored that he was about to leave town and the police attached him for a debt of $22 owed a druggist. Then his landlady came on him for a bill of $50. The ladies in the same house wanted several hundred more on account of mining stock which he had sold for them in the East, and not accounted for. Friends settled up some of the smaller bills, but when the big ones began to come in they had to stop. Yesterday Moffatt, the tailor, had him arrested for obtaining money under false pretenses, and it is stated that he pretended to him that he had a big income. The case was in Justice Saxton's court yesterday and was put over until next Thursday. In the meantime the young man has employed an officer to keep him company so that he will not have to be confined awaiting actions by the courts. There are said to be several thousand dollars in bills outstanding, among them florist bills to the amount of over a hundred dollars, confectioners' bills, etc. The young man is said to have wealthy relatives in Canada, who may settle up and keep him from behind the bars.

District Court.

In the first division of the district court yesterday the day was occupied in the trial of Ned Falck, Thomas Clark, Chas. Ritter and Frank Smith. They are charged with having burglar tools in their possession. Mr. Blackmer prosecuted and Mr. Dodge defended. The jury was out a short time when a verdict was given, finding all of them guilty but Ritter, who was acquitted.

Ernest Scott, Michael Burns, George Callihan, Timothy Morman and Pat Neland, were arraigned and their cases set for trial on June 8th. They are men who were caught stealing at Cripple Creek during the fire, and who were brought to jail here.

People vs. J. A. Bailey was set for trial on May 27th, and the case of People vs. James Divers was set for June 1st.

In the second division the suit of the Golden Dale Mining company was dismissed.

Hussy vs. Johnson dismissed for failure to prosecute.

Sparks vs. Penrose, motion to dismiss argued and [illegible].

BASE BALL.

Colorado Springs Beat Aspen by a Big Score.

There was some great batting up at Athletic Park yesterday afternoon. The game was better than is indicated by the score, for many of the hits were excellently placed, and the Aspens did not make more errors than many a good team makes. But the Springs boys got on to the pitching early in the game, and the way they hammered the ball was enough to make any opposing team very weary.

In the field, on the Springs side, every body played a good game but Gatewood. The new pitcher, Kimmel, has fair speed and good judgment, and is not a bad hitter. He will be an addition to the team. Gimlin played first, and did it well. Sedden makes a fair short-stop, and is a good hitter and base-runner. "Shortly" Faulkner played center, and his place behind the bat was taken by Bess, who let nothing go by him. He will be a first-rate substitute for Faulkner when occasion requires.

The Aspen team is one of the best in the league, but yesterday was rather an off day with them. Their pitcher was hit so hard that they got a bit careless. Their best fielders appear to be the third baseman and the left-fielder, but they are all ball players, and with a good man in the box, they would have given our boys a hard rustle for the game.

The game at Pueblo on Sunday was about the best game yet played in the league. The home team won, by one tally only. Hahn, the new Springs pitcher, struck out seven men, and sent to first only one on balls. He looks slender, but he has good staying power, and pitched one of the very best games of the season.

To-day the home battery will probably be Gimlin and Faulkner, and the Aspen captain will put in his best battery, so that there will not be such a [illegible] game as yesterday, and the game will be more interesting.

The Colorado Springs management has been playing its hard luck, and it depends on the public whether they will be able to keep up the team. They have good men now, and will win more games than heretofore; and if the team is encouraged by good crowds, there will be a good season yet.

A large turn-out to-day and Saturday will help the management to decide to go ahead and play the season out. The game to-day will certainly be closer and better played than yesterday's, and in the interest of the future of the game in this city, it is hoped that the attendance may be good.

Following is the score of yesterday's game:

COLORADO SPRINGS.

Name.	R	BH	SH	PO	A	E
Gatewood, 2d.	4	3	1	4	3	3
Keyes, 3d.	4	0	0	1	0	0
Gimlin, 1st	3	3	0	7	3	0
Sedden, s. s.	4	2	0	3	1	1
Vogelbaugh, l. f.	4	3	1	1	0	1
Faulkner, c. f.	3	2	0	0	0	1
Bess, c.	4	2	3	0	1	0
Hahn, r. f.	2	2	2	1	0	1
Kimmel, p.	3	3	1	6	3	0
Totals	31	27	8	27	10	7

ASPEN.

Manley, p.	2	0	0	2	0	2
Totals	20	16	0	27	9	8

Earned Runs—Colorado Springs, 11; Aspen, 6.

Two-base Hits—Gimlin, 3; Faulkner, 2; Gatewood, Sedton, Bess, Evans, Howe.

Three-base Hit—Harkness.

Stolen Bases—Springs, 11; Aspen, 2.

Double Plays—Springs, 2; Aspen, 1.

Bases on Balls—Off Kimmel, 7; off Howe, 4.

Struck Out—By Kimmel, 6; by Howe, 2.

Passed Balls—Evans, 2.

Umpire—Harry Dennis.

To-day's Game.

At Athletic park to-day the Aspens and Colorado Springs teams will play again. The game will be called at the usual hour and the teams promise to make it interesting. The line-up will be as follows:

Springs.	Position.	Aspen.
Gatewood	Second Base	Harkness.
Keys	Third Base	Howe.
Gimlin	Pitcher	Kidder.
Sedden	Short Stop	Dorman.
Vogelbaugh	Left Field	McHugh.
Faulkner	Catcher	Evans.
Ross	First Base	Lowe.
Hahn	Center Field	Meinecke.
Kimmel	Right Field	Manley.

NATIONAL LEAGUE.

Louisville-Washington.

Louisville, May 18.—To-day's game was long and tedious. Treadway's three errors resulted [illegible] and gave Washington the game. Attendance, 1,200. Score: Louisville, 8; Washington, 5.

Cleveland-Baltimore.

Cleveland, May 18.—Cleveland won one of the most exciting games of the season from Baltimore to-day. The game abounded with sharp fielding plays and magnificent base running. Tebeau's home run in the first went to [illegible] fence and he scored one ma[illegible] of him. [illegible] Jennings's work at short was gilt-edged. Score: Cleveland, 4; Baltimore, 3.

Cincinnati-Philadelphia.

Cincinnati, May 18.—Foreman pitched an excellent game and had almost faultless support. Miller's batting was the feature. Score: Cincinnati, 9; Philadelphia, 5.

Chicago-New York.

Chicago, May 18.—The New Yorks could do nothing with Terry. The Colts stole bases as they pleased and played an errorless game, outclassing the visitors at all points. The score: Chicago, 15; New York, 2.

St. Louis-Boston.

St. Louis, May 18.—The Bostons got but one hit off Hart up to the eighth inning, when they combined two hits with errors by the Browns and won the game. Score: St. Louis, 2; Boston, 3.

IVES WAS DEFEATED.

Garnier Won the First in the Chicago Billiard Match.

Chicago, May 18.—The first of the series of six games to be played by Frank Ives, Jacob Schaefer and Albert Garnier at billiards was played to-night in Central Music hall between the Napoleon of the game and the Belgium expert. Ives was badly beaten. His only explanation was he "could not play," and that his cue was sticky at the outset of the game. Garnier was put on the 300 mark, while Ives and the Wizard expected to score 500 against him or lose.

These odds did not appear to be equitable in to-night's contest as Ives was beaten on even terms, 300 to 27. The foreigner was given plenty of applause from the few hundred people present. The game was more difficult than those played in the East—18-inch balk line, one shot in balk and one in the anchor box. Such restrictions made it necessary to scatter the balls as soon as brought together, except in open table billiards. George Siler was referee. The score: Garnier, 300; high run, 53; average, 11 3-27. Ives, 27; high run, 31; average 11.

World's Pigeon Record.

Detroit, Mich., May 18.—A Detroit bird yesterday broke the world's 300 mile homing pigeon record. Seventy-five pigeons were liberated at Sidney, Ill., yesterday and one of them, a three-year-old bird, belonging to Fred Ruoff, made the distance, 300 miles in four hours and 54 minutes, the average rate of speed being 1,532 yards per minute, beating the record by 146 yards per minute. Another of the birds belonging to Bob Shemansky of this city also broke the record, arriving in four hours, 52 minutes and 28 seconds.

Syndenham Cricket Match.

London, May 18.—In the cricket match at Syndenham to-day between the English team and the Australian eleven, the first inning resulted in the Englishmen scoring 114 and the Australians 108, for four wickets.

Refused to Surrender a Swindler.

New York, May 18.—District Attorney Fellows to-day received a dispatch from the State Department at Washington, stating that a cablegram had been received from United States Consul General Williams at Havana, saying that the Spanish authorities there had refused to surrender to this government Mariel Martin, alias Manuel Gonzales Mendoza, who was wanted in this city for swindling August Belmont & Co. out of $34,000 by a forged draft. Whether the Spanish authorities were moved to their decision by the sympathy the American people have shown

IN MEMORIAM
E. C. F. KRAUSS.

Services Held Sunday Afternoon in Coburn Library.

AN ACCOUNT OF HIS LIFE

Biography of a Scholar and Christian Gentleman—Affiliate of Theologians, Scholars and Preachers—Family History.

A memorial service in honor of Professor Krauss was held Sunday afternoon at the Coburn Library. The service was a beautiful one, the music being in charge of Mr. Goldmark. Mr. Hamlin's rendering Harder's Largo was very effective. President Slocum gave a short account of his life.

Dr. Gregg spoke of his associations with him while Mr. Krauss was an instructor at Harvard University.

Mr. Brauer, of his relation to the students; and Mr. L. R. Hersch, of the essential elements of success in his life.

Following is Dr. Slocum's outline of his life:

"In as short a time as possible I am to give you an account of the life of our friend who passed to his reward a few days ago. We shall not forget for many days the gentle, manly, scholarly man whom we all learned to love and respect who was always courteous and obliging and who seemed a part of the life he led among the books in the room above.

"It is well for us to hold this service and remind ourselves of the life that had the qualities of the scholar, the reformed, the theologian, and above all the sweet and beautiful characteristics of a Christian gentleman.

"We are better for knowing him, but it is only as we gather all the facts of his unusual life together that we can realize how a great soul such as ours has lived among us, and none of us has realized all his greatness, goodness or bravery till he has gone from us and his life can be seen by us as we can see him by the standards with which we measure all true men. For many of the facts of his life I am indebted to those who have known him best and have lived nearest to him.

"The family history of Mr. Krauss is remarkable. He came of a line of theologians, scholars and preachers. His father, grandfather and great-great-grandfather were prominent ministers in Augsburg, and each of them celebrated the fiftieth anniversary of his ordination. The great-great-grandfather, Samuel Uhlperger born in 1693, preached in the church of St. Anna in Augsburg and in 1743 his people celebrated the fiftieth anniversary of his ministry.

"Ludwig Friedrich Krauss, the grandfather, born in [illegible] was pastor of St. Ulrichs, the largest Protestant church in Augsburg, and situated directly under the eaves of a Roman Catholic Church of the same name. In 1843 occurred the fiftieth anniversary of his ordination, and in 1868 that of his son, Johann August Krauss, the father of our Professor Krauss.

"The daughter of Samuel Uhlperger (the great-great-grandfather) married a merchant of Augsburg, founder of the 'Krausische Haus,' a famous business establishment [illegible] days. [illegible] marriage arranged by the parents of both sides, proved a very happy one. Just from it descended the dignified and scholarly minister of the German Lutheran Church who have already been mentioned as the grandfather and father of Professor Krauss. But for the exciting political events of his generation, he whom we have known as the loyal American citizen, clergyman and scholar might have lived all his days in Augsburg and have been gathered to his fathers after 50 years of public service there. That he was of a somewhat different mould will be seen from the story of his long life so full of unusual experiences and events that it reads like a romance.

"He was born in Kirchheim, a little German village where his father was settled. Delicate from birth, he was allowed to run about barefoot with the peasant boys in the village, in order that the outdoor exercise might promote his bodily health. He attended the village school until, when he was 7 years old, his family moved to Augsburg, where his father, as has been said, took charge of the important parish of St. Ulrichs.

"His mother was Fraulein Hoff Leandt, daughter of a noted student of medicine who occupied a professorship of physics, chemistry and physiology in Erlangen University. She was a beautiful and gifted woman, and her home of the prominent preacher in Augsburg was a center for the social and intellectual life of the city. The church of St. Ulrichs was an old church in Luther's day, and Luther himself had preached there. A room is shown in which he slept, and also a place on the wall where he was obliged to throw an inkstand at the devil. This room was not occupied by Mr. Krauss's father, however, the pastor of St. Ulrichs, who was called Herr Pfarrer; Pastor Krauss being always addressed as Herr Sister.

"Augsburg was, during the youth of our friend, a city where lived men and women of recognized intellectual and social standing. The amusements of the young people were carried on in company with their elders, who often joined in the games with them. There was much wit in the Krauss family, and they made a circle of friends and relatives, and the social relations of the circle were of an intellectual and refreshing type. In earlier days the famous 'Apostle Birgitta' had been the gathering place to which the wits collected, among the citizens resorted, and many are the stories told of the good times which it witnessed, when old and young alike joined in whatever amusement the hour suggested. In Mr. Krauss's youth this gall known resort was a solid open, and he was very fond there with his parents and companions. The result of this one interest in all human beings and his eager enjoyment of all human relationships were, from youth on to old age, a well recognized and loved trait of his character.

"His school education was pursued in the Gymnasium, at Augsburg, and later at the University of Erlangen, that is now one of the great theological centers of Germany. He spent several years there. After a few months at home he went as substitute to a little Bavarian village, Magerbein, where he preached for Pastor Weiss for a year. A similar position followed in another small village, Reamion by name, and during the three years there spent he learned to know well the peasant character with which he had been familiar as a child. The inhabitants of these villages were men and women of good natural capacity and strong character, simple and rude in manner, faithful friends, sturdy enemies. The young theological student endeared himself to them, and formed ties of friendship which endured many years. He had a great love for music, and had taken lessons on the piano from his 10th to his 16th year.

"The year 1848 found him keenly stirred by the political and social agitations of the day. Always intensely interested in any public movement, he could not keep in the background, and ere long drew upon himself the displeasure of those in power. He made a radical political address in Augsburg, although he knew that it would excite the government. He openly espoused the cause of the peasants, and was early recognized as a man who must be watched. Absolutely fearless, and faithful to his ideals and principles, he bore himself with great independence until finally the climax came, and he was forced to flee for his life. He wrote a poem which was privately printed and circulated, in which he denounced the King for his treachery towards his subjects. Certain pledges given by the King to the peasants had been broken, certain promises had not been redeemed—these were the facts which the poem told, and which led to the author's exile for many a long year from his native land. Not until he had been many years in America was pardon extended to him. In 1900 or 1901 he visited Germany and saw once more the relatives from whom he had been separated.

"The little town of St. Gallen just over the Swiss border, was a resort for many political refugees of that day. Mr. Krauss spent some time there very happily. Dreams of a democratic commonwealth to be realized in America animated discussions of the vital questions in European [illegible] history and the days. In 1851 in company with some of his fellow exiles, among whom each [illegible] he came to America, and soon found himself working for a Swiss farmer on the little town of Highlands, Ills. He often [illegible] appropriate occupation, saying that he [illegible] as a preacher was given discovered early for two years he had charge of a church at Highlands.

"He was next connected with a school in Cincinnati, [illegible] Hieron. Orcutt. Here he taught music, mathematics and Latin.

"After this he was appointed instructor in German in Harvard University and lived for seven years in Cambridge. Dr. Felton was president at that time, James Russell Lowell held the chair of belles lettres, Longfellow and Dr. Holmes were in their prime. These men were his friends and associates, he knew them well. [illegible] upon the faculty of the Massachusetts Institute of Technology, and also of the Girls' High School in Boston.

"[illegible] of such various and brave enthusiasm and steadfast devotion to duty endeared to our minds, a little more than two weeks ago. He came to the West with his family, because of the health of a beloved daughter, who has gone to Colorado and had so suddenly made her passage early. Many of her friends can never forget the bright, sunny life that ended so early. And it may truly be said that all who knew the father will cherish his memory and the privilege of his friendship.

"It is interesting to note that in his youngest days he had a strong inclination to choose mathematics as his profession. But in Germany it was the unwritten law that sons should follow the profession of their ancestors, so he studied theology. His interests both on the intellectual and the practical side, remained unusually varied throughout his life. His love of music has been spoken of. He also loved painting and sculpture with the enthusiasm which can only arise from a true artistic nature. During the past year the old work of Samo Brace in the library Bible was a daily source of comfort to him, and he often interrupted his work to enter some thought suggested to him by it. Professor Clifford says that he was also very abreast of the times in his information concerning electrical and other scientific matters, frequently asking questions which showed that he read the current scientific magazines. He knew what Tesla was doing, and he watched Edison. For natural history he never had any liking, much to the disappointment of his father, who was well informed in this line. But he was deeply interested in evolution and read widely upon it. History, biography, [illegible] ways of the heavens, interest to him. He had at different times made a special study of Napoleon, of Ferdinand the Great and Luther.

"In his younger days he also made a foot-trip through some parts of Germany with a friend, he wrote an account of this expedition and illustrated it himself. Some persons in this audience will recall with great pleasure the series of lectures he delivered several years ago upon the great German poets. He wrote of them with the devotion of an scholar who had sit long years at their feet. He had also a full knowledge of Spanish, both German and English.

"His connection with Colorado College began something more than three years ago and has continued without interruption until we missed him from his place two weeks ago on account of his last illness.

"I need not speak of his personal qualities and of his work as a minister among us, and I must not encroach upon their sacredness, but I want to bear witness before I close to my deep and warm affection for him whom I shall always be glad to have known, and also to his love and devotion to the college to which he has labored during these past years. Into the structure of any institution like this there are builded the noble sacrifices and the earnest lives of many persons. The product of it all is the inner spiritual life of the institution itself. One of the earnest lives that has built itself into this college is that of Professor Krauss, the scholar and the Christian gentleman."

Improbable.

"Birdie," said Mrs. McGinnis to her daughter, "what were you sitting up reading last night? Was it a novel? Tell your mother." "Yes, ma, it was a novel." "And who wrote it?" "Dumas the elder." "Now don't tell me that, who ever heard of an elder writin a novel that you'd sit up half the blight to read?" Texas Sifter.

Over Thirty Years Without Sickness.

MR. H. WEINSTEIN, a well-known, enterprising citizen of Byron, Ill., writes: "Before I paid much attention to regulating the bowels, I hardly knew a well day; but since I learned the evil results of constipation, and the efficacy of

AYER'S Pills, I have not had one day's sickness for over thirty years—not one attack that did not readily yield to this remedy. My wife had been, previous to our marriage, an invalid for years. She had a prejudice against cathartics, but as soon as she began to use Ayer's Pills her health was restored."

ABSOLUTELY PURE

Where the Art of Choosing Paid.

"Some years ago," said a well known woman poet, "I wrote a poem that appeared in the bric-a-brac department of one of our leading magazines. It was a bright little bit of verse, with a timely 'hit' in the last stanza, and was copied far and wide. A few years later a Washington newspaper offered a premium for the best poetical selection sent in by any of its readers. A young friend of mine sent my poem and won the prize, $5. The point of this story lies in the fact that, for her taste in selecting the poem, she received $2 more than I received for my skill in writing it."—New York Times.

Baby's Garden.

Almost every family can allow the children a tiny spot for their very own for the planting of a few seeds or bulbs or slips, the care of which will give occupation and keep the children at home when otherwise they would prefer to go somewhere or to have somebody come to see them. Woman's Mind.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Baker & Co.

Children with pale bluish complexions, indicating the absence of the requisite red globules in the blood, should take Dr. Sawyer's Ukalipe.

Experience and money cannot improve Dr. Sawyer's Family Cure, because it radically cures dyspepsia, liver complaint and kidney difficulty.

Dr. Sawyer:—

Dear Sir: I can say with pleasure that I have been using your medicine, and will recommend it to all suffering ladies.

Mrs. W. W. WEATHERSHEE.
Augusta Ga.

For sale by Colorado Springs Drug Co.

One minute is the standard time, and One Minute Cough Cure is the standard preparation for every form of cough or cold. It is the only harmless remedy that produces immediate results. Colorado Springs Drug Co.

How to Treat a Wife.

(From Pacific Health Journal.)

First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her heart all clouds of gloom.—To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health.

Young mothers dread the summer months on account of the great mortality among children caused by bowel troubles. "Perfect safety" may be assured those who keep on hand DeWitt's Colic & Cholera cure, and administer it promptly. For cramps, bilious colic, dysentery and diarrhœa it affords instant relief. Colorado Springs Drug Co.

The Ideal Panacea.

James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for Coughs, Colds and Lung complaints, having used it in my family for the last five years, to the exclusion of physician's prescriptions or other preparations."

Rev. John Burgus, Keokuk, Iowa, writes: "I have been a minister of the Methodist Episcopal church for 50 years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Try this ideal Cough Remedy now. Trial bottles free at Baker & Co.'s Drug store.

For every quarter in a man's pocket there are a dozen uses; and to use each one in such a way as to derive the greatest benefit is the question every one must solve for himself. We believe, however, that no better use could be made of one of these quarters than to exchange it for a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy, a medicine that every family should be provided with.

Did you ever think how readily the blood is poisoned by constipation? Bad blood means bad health and premature old age. Write Little Early Risers the famous little pills, overcome obstinate constipation. Colorado Springs Drug Co.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50 cents for large bottle. At Baker & Co.'s drug store.

A. L. Wooster, a prominent citizen of Dexter, Mich., after suffering excruciatingly from piles for twenty years, was cured in a short time by using DeWitt's Witch Hazel Salve, an absolute cure for all skin diseases. More of this preparation is used than all others combined. Colorado Springs Drug Co.

Absolute Satisfaction or no Sale. Money Cheerfully Refunded

It Pays to Trade at THE BEE HIVE, Originators of Low Prices.

The method pursued by the Nickel Plate road, by which his agents figure rates as low as the lowest, seems to meet the requirements of the traveling public. No one should think of purchasing a ticket to Buffalo N. E. A. convention during July until they have learned what the rate is over the Nickel Plate road. For particulars write J. Y. Calahan, General Agent, 111 Adams street, Chicago, Ill.

DISEASES OF THE SKIN.

The intense itching and smarting incident to eczema, tetter, salt-rheum, and other diseases of the skin is instantly allayed by applying Chamberlain's Eye and Skin Ointment. Many very bad cases have been permanently cured by it. It is equally efficient for itching piles and a favorite remedy for sore nipples, chapped hands, chilblains, frost bites, and chronic sore eyes. For sale by druggists at 25 cents per box.

Try Dr. Cady's Condition Powders, they are just what a horse needs when in bad condition. Tonic, blood purifier and vermifuge.

A WISE CONVENTION.

We print to-day a number of expressions of opinion from various newspapers in this State, of various political affiliations, on the result of the Pueblo convention. Making due allowance for the point of view of each, we are able to tell pretty accurately what the effect of the convention is, and what bearing it is likely to have on the future of the party in this State.

In these expressions of opinion, there are manifest two things very plainly. First, a general agreement among the Republicans that the convention acted wisely [illegible] agreement among the opposition papers that it did not. [illegible]

There were two things that were indispensable before the convention, if the Republican party in this State was to continue to be the dominant party in State politics, and of any influence in national politics: first, to keep the party together; and second, to keep a Republican. Both these things, we believe, were done at Pueblo.

It is because of the success of the convention in doing these two things, which at one time appeared almost impossible of accomplishment, that such papers as the Rocky Mountain News are so disappointed over the result. That paper, and the men whom it represents, have been working for years to disrupt the party in this State in order to let the opposition have a chance at the public offices and a share of the public patronage. They have turned Democrat or Populist, or independent, or anything else, as the occasion seemed to demand, and all for the sake of breaking up the Republican party. The men whom that paper represents care nothing whatever for the welfare of the State, nothing whatever for the cause of bimetallism; they only make a pretense of caring for either in order to give them a little influence, and enable them to injure the Republican party. This year, they thought they had an unequalled and unprecedented opportunity to beat the Republican party by dividing it, and encouraging discord among its leaders. To this effort they have devoted their whole attention, and all the talent at their disposal. The News has hesitated at nothing that would serve its purpose. The baldest falsehoods have been printed as news, in its telegraph columns; the most stupendous falsifications have been published in its editorial columns; everything was done that could be done to create division in the Republican party. But its unhallowed efforts have been, in vain; the Republican party has declined to take advice from its bitterest enemy; and the prospects of Republican success in this State this fall are brighter now than they have been at any time for six months past.

In their efforts to disrupt the Republican party, the opposition have been aided to the extent of its small influence by that disgraced and discredited sheet, the Denver Republican, and by a few of the country papers, which have no opinions of their own, but get them ready made from the Denver journals. The course of the Republican has been more disgraceful than that of the News, because the latter has not pretended to be a Republican paper, while the former has; and because the opposition of an avowed enemy, even though carried on by thoroughly disreputable means, is not so bad as the dastardly treachery of a pretended friend.

But the efforts of the Republican have been no more successful than those of the News; and the Republican party today stands before the enemy with a united front.

This State could stand anything better than a return of Populist domination. That would be worse than gold monometallism, worse than another term of Cleveland, worse than having to live next door to Joe Sibley. The friends of Senator Wolcott have shown conclusively that they are willing to make any sacrifice [illegible] the good of the party, and we trust that the friends of Senator Teller will show, when the proper time comes, that they, too, are willing to concede something in order to prevent another possible Waite regime.

The battle-cry this fall will be "No Populist domination," and we believe all the Republicans of the State will join heartily in it, and march to victory together with that for their watchword.

THE METHODIST CONFERENCE.

The General Conference of the Methodist Episcopal church is one of the most important and influential ecclesiastical organizations in the United States. Its meeting this year is of especial interest, not only to Methodists, but to all who have any concern for the evangelization of the republic and for the efficiency of one of the most prominent divisions of the church catholic.

The question which is exciting the most interest outside of the church, and perhaps inside of it, is whether the women who have been elected as delegates will be admitted to the conference, notwithstanding the failure to carry of the amendment which authorized their election, and whether the church will take another vote on the question of their eligibility.

It is of much more importance to the church that the question should be settled fairly and in a spirit of concord, than that it should be settled in either particular way. We do not suppose it will make a great deal of difference in the efficiency of future conferences whether women are in them as delegates or not. It would make a great difference in future conferences if the settlement of the question, either way, were to leave bitterness behind it.

Since this is so, we are glad to see that a spirit of conciliation and Christian charity on both sides is apparent in the conference, and that this spirit has particularly distinguished the women who had been elected as delegates. Rather than have any controversy over their admission at this time, they have waived their privileges—of course without prejudice to their rights—and are not insisting on their vote in this body. The probable outcome will be a re-submission of the proposed amendment permitting the election of women as delegates.

The election of new bishops is another matter which is exciting great interest in the church, though not so much outside. The leaders in the balloting have been the celebrated "Chaplain" McCabe and Dr. H. A. Buttz. Mr. McCabe is one of the best platform speakers in the church; Dr. Buttz is one of its most learned theologians and most capable administrators. Both would undoubtedly make excellent bishops.

The bishop question has another phase of considerable interest, also. A movement is on foot to retire two of the oldest bishops, Drs. Bowman and Foster, because they are no longer able to exercise fully the functions of their office. It seems likely that this will be done. We suppose they will remain bishops [illegible] though the Methodist church does not believe in Apostolic succession, still, a bishop once consecrated as such could hardly be unmade a bishop simply on account of age or infirmity.

So far, in the sessions of the conference, the most notable thing of all has been the straightforward good sense and conciliatory spirit shown by the delegates. The two sides on the woman question are just as determined as ever, [illegible] right and the other wrong; but they have agreed to differ for the present, and to abide by the decision of the church without bolting. This is good sense, and good Christianity.

AN ENCOURAGING VIEW.

The account given in the letter which we published Sunday, of improvement in the tone of official life in Washington, is encouraging, and can be relied upon; for it is based on the opinions of experts. If anyone knows all about Washington life it is a veteran newspaper correspondent. Many of the young and inexperienced reporters go there, hear a lot of scandal, see a number of things of which they know no honorable explanation, and jump at the conclusion that Washington life is "rotten to the core." A good many of them write articles and even books under that impression. But veterans like Boynton and Beadle know better. They know of much that is discouraging, but on the whole they can see that the trend of development is in the right direction.

Much popular distrust of public officials comes from the hypercritical editors who use their trained intelligences to prove that all officials, and especially all Congressmen, are either knaves or fools. We know a young college man who had been raised on the New York Nation and similar reading matter, who was called to Washington as an expert to aid the Senate Finance committee in some of its investigations. He came out of the winter's work with a large stock of respect for many members of both houses. When a tariff measure was under consideration he had expected to see the representatives of special interests appear and wind the shallow politicians around their fingers. Instead, he came to see that each representative of a special interest was likely to know his own case so well that he did not know anything else, and the more disinterested and intelligent committeemen were more likely to befool him than he to mislead them. Life in the committee rooms, where most of the evil things are supposed to be done, changed all his views as to the honesty and intelligence with which Congressional work is commonly done. Congress is one of the awkwardest bodies on earth, but part of its awkwardness is apparent only, part of it inevitable, and the individual members are for the most part doing their best to discharge the duties imposed upon them.

The prominent London members of the British Chattered company are said to be giving largely to charities in order to make themselves so popular that the company may escape punishment for its misdeeds. Such giving is what Bolton Hall calls "cyclone insurance," a sort of premium paid to the moral sentiment of the community to avert a storm of indignation otherwise likely to annihilate the entire profits of rascality. It often has the desired result and may in this case; but the best protection for these particular wrong-doers is no doubt the fact that while serving themselves they were also serving "British interests." In the mind of the British public to serve imperial interests is an act that will cover a much greater multitude of sins than any amount of charity.

The movement to make all national organizations international has its disadvantages as the Salvation Army has learned. The W. C. T. U. also seems to have spread itself out so thin that its influence in this country is not as noticeable as it was for a time. Miss Willard is in England a good deal, and the agitations conducted by the union rather tend to flag while she is away. The world is getting smaller everyday but it is still pretty large for the immediate personal influence of one individual to be felt all over its surface.

In the course of one sentence the Denver Republican calls the local politicians whom it does not like, both kinds of leeches (leaches). When a paper gets so excited that either its orthography or its rhetoric suffers to this extent, one cannot but fear that its presentation of facts will also contain inaccuracies.

Stratton to the Rescue.

It was fitting that W. S. Stratton, the gold king of Cripple Creek, should be the first to the rescue. He was in Colorado Springs when the word came of the final demolition of the metropolis of the greatest gold camp on earth. It was his occasion and he grasped it. The railroad officials had announced early in the afternoon that a special train would be sent to the stricken city when a sufficient amount of money had been subscribed to pay for the journey. As soon as Mr. Stratton heard of this project, he went to the officers of the Midland Railway company and said: "Stop your subscriptions right here. I will pay the balance for running the train to Cripple Creek in the shortest time ever made over the line." Mr. Stratton then pitched in and bought up all the supplies that could be gathered in the limited time before the departure of the train. And did more hard manual labor in loading the supplies on the relief train than any other man in the outfit. This train of mercy made the unprecedented time between the Springs and Cripple Creek of about three hours. Cripple Creek was Mr. Stratton's nearest and it was meet that he should come to the rescue, which he did nobly. That there was no more popular man in the camp that night was amply demonstrated.—(Cripple Creek Guide.

PRESS OPINIONS OF THE CONVENTION.

If we are compelled to have a gold-bug for President, probably McKinley is the best one of the lot. He is a thorough protectionist and a broad American. Under him our foreign policy would be vigorous and our revenues would exceed our expenditures. A half loaf is better than no bread, but we believe Colorado Republicans will stand for "bimetallism and protection, not one but both."—(San Luis Graphic.

Colorado Republicans will do well to avoid a bolt, at least until all the tickets are in the field. There might be such a thing as a scramble to get back into the ranks after each party has named its ticket. This is a good year to be not too hasty.—(San Juan Prospector.

[illegible] go to the national convention unpledged as to any [illegible] no limitations except to lend their cooperation to Senator Teller in his labors for the cause of silver. Some Republicans doubt the wisdom of even going that far, and contend that the result will be that Senator Teller will refuse to abide by the majority vote of the convention on financial measures, and that the other delegates must follow him. We do not so construe the declarations of Mr. Teller. While his declarations are very strong as to his probable position in certain contingencies, we do not think they go to the extent of bolting the convention.—(Greeley Sun.

The action of the Republican State convention in practically saying that unless the St. Louis convention declares outright for the free and unlimited coinage of silver, the delegates from Colorado shall bolt, will not meet with the approval of the rank and file of the party in the State. Suppose Colorado Republicans decide to leave the party with what political organization will they ally themselves? Surely not with the Populists. It were better never to have free coinage much as it is desired if with free coinage all the vagaries and pernicious socialist ideas of Populism are also to be had. And what is to be gained by joining the Democratic party? Have the Democrats not been in power for four years, and if anything is to be done for silver by them why is there no evidence of it? If the Democratic party should be given another lease of power would it be more likely to bring about free coinage in the coming four years than in the four years that have gone by? The fact is the Democratic administration has been the most persistent and determined enemy the white metal has ever known. Moreover, the Democratic party, upon almost every public question that has presented itself, has demonstrated its utter incapacity to deal with the same in a broad and statesmanlike manner, and in consequence hard times and distress such as the country never knew before have been upon us since the Republican party went out of power. Republicans should realize that other things are to be considered besides silver. But even were this not the case the fight for the remonetization of silver can better be made in the party than out of it.—(Manitou Springs Journal.

The Republican State convention at Pueblo Thursday passed resolutions strongly endorsing Senator Teller's course in the Senate, and elected him to head the delegation to the national convention at St. Louis. The delegates elected were instructed to follow his advice and leadership at the convention. This is an endorsement that any man should be proud of, but we believe Senator Teller deserved this at the hands of the Republicans of this State, and we further believe that the trust will not be betrayed but that he will prove loyal to the wishes of his constituents and equal to the great emergency.—(West Creek Gold Brick.

How many of the Southern States will go for free coinage 16 to 1? Not one of them. Who will they go for? The Democratic nominee, whoever they may be. Who will be elected President this fall? The Republican nominee, unless unlooked for changes come. Will either of the two great parties of the country commit themselves in favor of free coinage 16 to 1? No. Is the question of free coinage gaining ground in the country at large? Yes, materially gaining, and prospects are more than good for a Congress that will favor it four years from now, and perhaps sooner. Suppose that Colorado Republicans should divide, and part of them follow Teller and part Wolcott in regard to staying with the national party, what will be the result? We give it up. Of one thing we are morally certain, the most herculean efforts have been and are being made to divide the Republican party of Colorado. There are disappointed Republicans who would rejoice to see the party muddled. Every Democrat and every Populist desires the downfall of the party. Our hope is in the State convention that will outline the party's policy this fall. Either wisdom will prevail or it will be Populism or Democracy with a silver electroplated skin and a stomach yearning for feed at the public crib.—(Golden Globe.

A solid free silver delegation has been selected by both the Democratic and Republican parties of Colorado to represent them in their respective national conventions. The people of the Centennial State are a unit on the monetary question and should one of the dominant parties place a free silver plank in their platform and the other party neglect to do so the former would carry Colorado by an overwhelming majority, regardless of the union. Coloradoans are alive to the best interests of the country and almost to a man they recognize the importance of the liberation of the white metal from the thraldom in which it has been placed by the monometallists of the east. The coming campaign will not be a conflict for party supremacy but a battle between humanitarians and the selfish despots of finance.—(Cripple Creek Times.

The Republicans of Colorado, at their late State convention, did the thing that was expected of them to do, endorsed the action of Senator Teller and presented a bold and unbroken front on the question of the free coinage of silver. The man or men who thought for a moment that the loyalty of Henry M. Teller was to be rebuked by his fellow Republicans at the convention reckoned without the host of the people.—(Grand Junction Sentinel.

The Pueblo Chieftain and the Colorado Springs papers are greatly put out at the endorsement Senator Teller is receiving at the hands of the Republican party, and citizens generally of Colorado. They are clinging to the Wolcott idea that Colorado's interests must be sacrificed to perpetuate the party in the State. These papers express the sentiment that a great number of the professional gang politicians dared not express in the Pueblo convention. They knew a large majority were against them and were shrewd enough to make the best of the situation.—(Aspen Times.

The Populist party has been a haven and refuge for "the dissatisfied crowd" and has done us no real good in any instance. On the other hand it has fostered anarchism, socialism and breed disloyalty and unpatriotic conditions everywhere that it has had full or partial control.—(Mosca Herald.

The result of the Pueblo convention is highly gratifying to the silver element of the Republican party in Colorado. The delegation to St. Louis is under strict instructions to follow the lead of Senator Teller, and this will be done to the letter. Populist papers will announce that the convention was weak-kneed and should have instructed the delegation to bolt the convention in case a gold standard man is nominated. This may be according to Populist ethics, but it is not the proper course to pursue. With such instructions the committee on credentials would be justified in refusing admission to the Colorado delegation. The convention, therefore, adopted the proper resolutions and they are perfectly satisfactory to all true silverites.

Senator Teller received the recognition his stand and services in behalf of silver and Colorado entitled him to, while Senator Wolcott was rightfully ignored, which is equal to being censured.

The Pueblo convention was a success.—(Durango Herald.

McIntire has given the State a clean, honest and economical administration. The only kick on him comes from the horde of office-seekers and professional politicians. He has not brought dishonor or disgrace on the State, nor made himself the laughing stock of the country, as "Blood to the Bridles" did.—(West Creek Times.

SILK ...SALE

Swiss wash silks; new dainty colorings that are usually sold at 50c per yard, but the maker is now ready to make fall goods and was willing to

Close them out much below actual cost.

We belong to a Syndicate of Eighty Dry Goods Buyers, with offices at 60 and 62 Lispenard St., New York, and that is why we are able to place these desirable silks on our counters at about half-price.

The Late L. P. Campau.

following from a Detroit, Mich., ... regarding a former citizen of this ... will be of interest here:

... funeral of Louis Palms Campau, ... death occurred Saturday noon at ...me of his sister, Mrs. Adele Cam... Thompson, 862 Jefferson avenue, will ... Tuesday afternoon at 4 o'clock from ...sidence. Rev. Ernest Van Dyke ...ing. The burial will be at Mt. ...emetery.

... deceased was a descendant of ... the oldest families among the ... settlers in Detroit. He was the ... the late Mary Palms Campau, a ... of culture and refinement. Louis ... the father of Mrs. Palms Cam... was at one time a quartermaster ...l under Napoleon, and after the ... of the great general, came to ...a with his family.

...is Palms Campau was educated in ...etroit public schools and Notre ... University. In politics he was an ... Democrat. He was a shrewd man... and for several years had charge ... large estates left by his father, ... division of the estate at the time ... death amounting to $250,000.

...1859 Mr. Campau was married in ...emens to Mrs. Mary Tilden. The ...d of Mrs. Tilden had left home ...years before and was generally be... to be dead. Every effort possible ...made to find some trace of him. ...Tilden finally procured a divorce, ... being some doubt of the death of ...Tilden, the church refused to sanc... the marriage. Mr. Campau was a ...lic and this refusal of the church ... him greatly. Every effort was ... to positively prove the death of the ...g man.

...e time ago, at the request of Mr. ...au, an agreement was prepared, in ... Mr. Campau set forth his willing... to submit the matter to an ecclesi...astical court. The papers were submitted to Mgr. Satolli, who sanctioned the investigation, which had not been finished when Mr. Campau died. Mr. Campau, however, received the sacraments of the church before his death."

A Springs Singer.

The following [illegible] Haywards Journal, published in Alameda county, Cal., of May 2:

"Last Monday evening a number of musical people gathered in the parlors of the Haywards hotel, where a musicale was held. Nearly everyone present was able to contribute something to the pleasure of the evening either by playing, singing or reciting. Among those who assisted were: Mrs. Charles F. Potter of Colorado Springs, whose clear sweet soprano voice, with the magnificent baritone of Mr. A. Karrell of San Francisco, will not soon be forgotten by those whose good pleasure it was to listen to them. During the evening elegant refreshments were served by the hostess, Mrs. Kelsey. At midnight all bade her good night, only regretting that the evening was over."

A Summer in Europe.

Rev. W. A. Pratt of All-Souls' church is arranging to guide a company of friends on a vacation excursion to Europe this summer, taking the same route that he went over last summer. Five ladies and three gentlemen have already joined the party and they expect to sail the last of June or the first of July. They have a very low rate and will be glad to have others join them. Particulars can be had of Mr. Pratt. While in the east a couple of weeks ago Mr. Pratt lectured at Centerville, Ia., on things that he had seen in the old world and the Daily Citizen of that place spoke as follows regarding it:

"In Senate hall on Friday night, April 24th, the lecture loving part of our community listened to Rev. Pratt's memories of 'Summer Days Beyond the Sea.' Mr. Pratt is a refined, scholarly and polished speaker. A man of broad and generous culture, gifted with rare wealth of thought, and an indefinable charm of expression, that at once captures and holds its potent sway over the emotions of his auditors. By his witchery of description one could almost see 'the lights of London flaring like a dreary dawn,' see the green of English lanes and hedges, scent the blossoming meadows and hear the soaring song of the skylark. Aside from the enchantment of his masterly painting of old world pictures, there was in Mr. Pratt's discourse a distinctive literary quality which gave to it an added charm for all lovers of [illegible]

Mr. Pratt began by saying he was sorry that his subject was not one of a historical, literary or scientific character, as such subject could be concisely treated and made more entertaining and pleasing. A subject of this character must in treatment take its own form, and necessarily must be somewhat rambling in its nature. The speaker took his audience to England. Concerning the mother country he said he was not an Anglo maniac, yet he must confess that for the mother country he had a profound admiration. I have no patience, he said, with a certain element in our population that is constantly striving to arouse animosity in the minds of the masses toward England. I can not forget our common bond of race and language, that England is the land of Milton, Shakespeare, Bunyan, Carlyle, or that from her shores to New England there sailed the Pilgrim band that has made possible the great nation in which we are all proud to claim a citizenship.

G. A. R. Open Meeting.

The meeting of the Grand Army of the Republic to-night will be an open one. The following programme has been prepared for the occasion:

Prayer .....by Rev. J. W. Finkbiner.
Song—"Naaman's Triumphal March into Damascus .....by Baptist Choir.
Addres.....by Mrs. Irene De Tolliver.
Song—"Festival Hymn"—Dudley Buck .....by Baptist Choir.
Address, by President .....
.....Wm. E. Slocum.
Song—"To Thee O Country," National Hymn .....by Baptist Choir.

All old soldiers, their families and friends, are cordially invited to attend, at 8 o'clock p. m., at hall, corner Huerfano and Cascade.

Nothing but Fun.

Prof. Gunning, the boy hypnotist, is booked to appear at the opera house for three nights, Thursday, Friday and Saturday. He has been drawing crowded houses in Denver. The prices of admission will be 25, 35 and 50 cents, including reserved seats. The Denver Republican says: "That marvelous production of nineteenth century learning, Prof. Gunning, held a big gathering on the tip-toe of continuous expectancy last night at the Tabor. From the second number on his programme the last was always the best, but the very last capped the climax, when a huge block of granite was broken on the unsupported body of one of the subjects. Among the entertaining features last night was a trio of men, looking sober enough in their senses, who went on a mad career through the house, driving some phantom coaches, and so exciting did the chase become that three ushers had to check their speed, much to the wrath of the drivers and to the amusement of the spectators. Another sang a medley of popular airs to the accompaniment of a broom."

Boys' Home in Need.

The Brightside Home for Boys, located in Denver, was recently destroyed by fire and all their clothing, bedding, etc., was burned, as the fire occurred at night. Mr. Field, the founder of the home, is striving to get things straightened out again and has rented another building, but they are very short of funds and the necessary furnishings, etc. There are several boys there from Colorado Springs. Contributions of boys' clothing, from 6 to 17 years, bedding of any kind, suitable reading matter or money will be gratefully received and may be left until May 29 at the Y. M. C. A. rooms, in care of Mr. Lloyd. This is the only home for all kinds of boys in the West, where they can receive a Christian education and training for nothing, if they are too poor to pay for it.

H. T. Mote, who came here from Kansas to take charge of the ball team, has departed between two days. He left Sunday night and as he owed the members of the team considerable money they had the police arrest him. He had a ticket over the Santa Fe and checked his trunk, but slipped down to the Rio Grande and bought a ticket to Pueblo, where he expected to take the Santa Fe. He was arrested by the Pueblo police when he took the train there and was held until yesterday morning. As the ball boys did not care to go to the expense of bringing him back he was permitted to go on his way rejoicing.

There was a pleasing entertainment at the Coliseum last evening and something new. It was the picture play, "Miss Jerry." There was a large crowd present and they thoroughly enjoyed it. The picture play was a series of beautiful stereopticon views. A young lady stood on the stage and recited the pretty little love story that accompanied them. She read her lines nicely and as the story is interesting throughout and the pictures attractive it proved very popular. Mr. Irvine is getting some good shows at the Coliseum now, and making it a very popular cheap pleasure resort.

Several years ago an old man from the Divide named Vickers was adjudged insane and sent to Pueblo. He is insane on religious subjects and as he was apparently harmless was given considerable liberty. Some time ago he got away, but yesterday he walked into the court house and the sheriff immediately took him in charge. Yesterday afternoon he was returned to Pueblo and at the depot grew quite violent.

Rock Island is the best line to everywhere.

"PRIVATE CORPORATIONS."

Summer School Specialized Course in Political Economy.

The summer school course advertised to-day for the first time is one that cannot but appeal strongly to all people interested in the many legal questions connected with "corporations." Dr. Amos G. Warner, who has been secured for this course, is a gentleman abundantly qualified for the task. He has been, during recent years, a lecturer on Political Economy in the University of Nebraska, and at present holds the chair of Applied Economics in Leland Stanford, jr., university. This topic is one to which he has given very careful study, and in this day of railroad and mining and banking questions, the course of lectures he proposes to give us in connection with the summer school programme will attract wide interest. There will be eight lectures as follows:

1—"Natural and Artificial Persons in Modern Industry."
2—"Historical. From the Great Bubble to the Era of Corporations Triumphant."
3—"Modern Corporations Law at Home and Abroad."
4—"Banking Companies: Typical of Corporations Where State Regulation Has Been Fairly Successful."
5—"Railroad Companies: Typical of Corporations Where State Regulation Has Been Attempted But Is Not Effective."
6—"Mining Companies: Typical of Corporations Where State Regulation Has Not Been Attempted."
7—"Corporations and Monopolies."
8—"Conscience in Corporate Affairs."

Two young fellows got into a fight at the merry-go-round last evening near the depot, and one got stuck with a knife and the other hit with a pair of brass knuckles. They will be in the police court this morning.

Coleman's poet is all right; so are his prices.

How's this? I'll can baking powder 10c or 1 lb. package soda 4c; also soda pop for 4c. 617 North Wasatch st.

Just arrived from France, one cask Montet Grande fine champagne cognac brandy, vintage 1870, at Smith & Welling's drug store.

Buster, Everett & Duncan, carriage and baggage line. Carriages furnished at all hours, day or night. Points of interest a specialty. Office, 126 Pike's Peak ave. Telephone, 342.

As every 1 knows, B ho local or Stranger, no I can raise, not even a granger, a hog he can sell at even ½ Of Coleman's salt side at 4 cents and ½.

Typewriter supplies at Low's.

Bennett & Chaplin, of the Crescent agency, have taken the agency of High Park City, the new town site projectid by The Greater Gold Belt Mining company and situate on a beautiful plateau, admirably adapted for a town site, about six miles southwest of Cripple Creek. High Park City starts very auspiciously and is already considerably in advance of neighboring townsites of much earlier origin. There are now erected, and occupied as dwellings and for various lines of business, between twenty and twenty-five buildings. The surrounding district, naturally tributary to High Park City, is being extensively prospected with some very gratifying results. Mr. J. R. Gleason is associated with Bennett & Chaplin as resident agent at the townsite.

California Excursion.

Mr. W. H. Gandy is arranging a special excursion to California and has already secured ten persons to go. By getting 15 persons a car can be obtained with special privileges as regards stop-overs, etc. The objective points are San Diego, San Francisco and other California towns and cities. Mr. Gandy would like to hear from any persons interested, at 317 East Monument street, or P. O. box 73.

The Dairy Lunch Room.

115 East Huerfano Street.
Good coffee, home made pies a specialty. Regular meals 25c.

Removal Notice.

On and after May 1st, 1896, the General Western Freight and Passenger office of The Missouri Pacific Railway company, will be located at 1700-1706 Stout street, Denver, Colo. Telephone No. 50.

Mines, Stocks, Investments

Colorado Springs Mining Stock Association.

Colorado Springs, May 18.—The week's trading at the Exchange opened rather quiet and inactive with stocks retaining much of the strength which distinguished them during last week. Irabella was the heaviest seller, all spies being made for dividend which explains the decline that that stock sustained. The stock fluctuated between 55 and 55¼ with sales of 12,100 shares, the latter being the opening quotations and closing at 55⅛. Mollie Gibson was unusually strong and made a gain of 4 cents over Saturday. The semi-official confirmation of the story that a good strike had been made in the mine is probably responsible for the advance. Union was the second largest seller with buying orders from Cripple Creek. It remained practically unchanged with sales of 10,000 shares at 49. Work, Argentum-Juniata, Cripple Creek Consolidated and Mt. Rosa remained stationary. In the unlisted, Arcadia and Gold Standard were the best traders. As a rule the prices in this class of securities show declines. The market closed steady.

ARGENTUM JUNIATA.

Water in the Lower Levels Will Not Interfere With the Output.

A special dispatch to the Denver Republican yesterday morning from Aspen states that water has taken possession of the lower workings of that mine.

The real facts are that the company, having completed a pumping station at the bottom of the incline (seventh level) some 60 feet below the present main pumping station, and pending the arrival of station pumps, which have already been ordered has intentionally allowed the water to rise to the fifth level. This arrangement is simply one of economy and saves considerable money, as the company was compelled to hoist water with expensive high-pressure pumps from the seventh level, while only the fifth and upper levels were being worked. The flow of water shows a very perceptible decrease as it reaches the upper levels, and the work of keeping it out of the first five levels is comparatively easy and at the same time less expensive. Preparations are being made to go back to the bottom of the incline as soon as the new pumps arrive. In the meantime the development is progressing steadily in and above the fifth level and the monthly production, which has heretofore been the result of work in these five levels will remain the same.

Des Moines Listed.

The latest company to be listed in the prospect department at the old Exchange is the Des Moines company, which was called for the first time yesterday. This company owns the Mud Hen and Bob Tail, [illegible] on Raven hill and [illegible] worked under bond and lease by the Gilt Edge Mining, Leasing and Bonding company. The bond calls for $20,000. Until recently the Bob Tail was worked by lessees. Some 60 feet of shafting and about 40 feet of drifting have been done on a good-looking vein. At one time a pocket of [illegible] running from $150 to $300 per ton, but it played out.

Sacremento.

The Miller lease on part of the Sacremento has struck a six-inch streak in a drift which is being run from the 165-foot shaft that assays $250 per ton. The streak was opened up Saturday about 20 feet from the shaft. The lessees will continue drifting in the hopes of catching a larger body of ore.

The Sacremento company, which is developing another portion of the claim during the past week sent six tons of ore to the Victor smelter which returned $80 per ton. The shaft on this part of the property has reached a depth of 115 feet with a vein that is six feet wide and carrying between three and four feet of ore that runs from $10 to $15 per ton. The rich ore shipped comes from a six-inch streak in the 70-foot level. The general indications at the bottom of the shaft are excellent.

Seat Sold.

Mr. H. E. Bassett has purchased the seat of R. J. Reid on the old Exchange. It is understood the sale took place some time ago, but the usual notice has only just been posted.

The Lincoln at the head of Myers avenue has just been equipped with a new pumping plant.

A DISTINGUISHED VISITOR.

Well Known London Financial Agent in the City.

Amongst the visitors who have been staying in the Springs during the last few days was de Putron Gliddon, of the Approved Investments company, [illegible] Queen street, Cheapside, London, England.

Mr. Gliddon was here some six months ago, and since then has done quite a little business in Europe with the stocks of companies floated by the Woods Investment company of this city, and others.

Yesterday a representative of The Gazette called upon him at the Alamo, to learn anything new about the mining market across the water, especially as that relates o Cripple Creek enterprises.

Mr. Gliddon was asked by the reporter whether he thought any large influx of capital from abroad was likely to occur soon.

"No, I think not," was the reply. "There is a great deal of talk about big syndicates from England buying up this and that and the other properties; but it is largely talk, and it's cheaper to talk than show. British funk notwithstanding, I was figuring out yesterday that if all the huge deals that have of late been spoken of as certainties should materialize there would be something like $[illegible] of foreign gold coming across to the States from England and France alone. Now the plain truth is that the foreigner [illegible] needs all the skill of a financial Isaac Walton to get a fair string. There are several difficulties in the way of ready sales of properties abroad, and I believe that the chiefest is the vast difference in methods of business on the two sides of the Atlantic. Here they jump into everything at a dash and decide matters in a few hours, while on the other side they are deliberate and proceed to their business with almost exasperating coolness and dilatoriness. Of course there is one redeeming feature, viz: that when you deal with John Bull or Jacques Bonhomme you can console yourselves by the thought that you are dealing with men who have the cash and are also on the lookout for investments. But this slowness cripples business because the American mine owner wants an immediate decision, and that is the last thing that the foreigner comes over or going of.

"But," inquired his interviewer, "isn't it true that the Rothschilds have sent an expert here lately, and has not Barney Barnato been quietly keeping himself informed as to the progress of Cripple Creek with a view to investing in that camp."

"As to the first part of your interrogation," said Mr. Gliddon, "I cannot answer, only I always have doubts about the Rothschilds telling tales out of school and heralding their proposed purchases in this way. They never do it in Europe, and not usually do so in America, for if they did so the prices of the lands or mines would be stiffened considerably and the business motto of the Rothschilds is the one given them by the old Baron (of Paris), 'Never buy at the top price.' Ambition is the weak weakness of great minds. As for Barnato investing in Cripple Creek properties, I think the chances for securing some of his pounds sterling are good. I know it to be a fact that he is well posted as to the condition of affairs at Cripple Creek, but, like the Rothschilds, he is far too shrewd a financier to herald his intentions from the housetops. It is certain, however, that several very big houses have their eye on Cripple Creek—that is an open secret in London and if it were policy I could give the names of firms that have done more than make inquiries; but it is very unlikely that any of them or the Rothschilds will do their buying to a brass band accompaniment.

"And of course you must remember," said Mr. Gliddon, "that in case of the British investor he has a wide choice, for there is the Kaffir gold country, producing last year as much if not more gold than the whole of the United States; also West Australia, New Zealand, India and British Columbia—all of which have excellent mines. And also other parts of the States are becoming known, particularly Montana; so that while Cripple Creek is a very decided favorite, and is known as a marvelous gold-producer, it has the competition of numbers of others, many of which are beginning to assert themselves quite vigorously."

Mr. Gliddon was next asked to assign some reason why an incursion of British capital had not materialized, notwithstanding the fact that a steady stream of mining experts in the interests of foreigners had visited the camps, the majority of whom reported favorably on the great El Paso gold fields, which most naturally inclined our people to the belief that large investments by Europeans would result.

He replied: "The reasons probably are the upset caused by the Venezuelan trouble; then the Spanish affair which was feared might cause war, and also lack of authentic information on the one hand, and a superamundance of the grossest and most shameful exaggeration on the other. But if the Gazette and a few other papers will continue to punch holes in these promotion wind-bags it will have a very excellent effect; for I am sorry to say that I have noticed that not only in Europe but also in the East there is an abundance of need for honest statements of fact.

"So far as the foreigner goes, I believe that after the campaign is practically settled, and matters of an international nature clear up, that there will be a very strong and continued demand for Cripple Creek properties, and that, under the stimulus of abundant capital the great camp under the shadow of Pike's Peak will be supplied with more ample reduction facilities and become what it seems destined to be, the most surprising of all Colorado's marvelous surprises."

As I was leaving him, Mr. Gliddon added: "I have been looking over Colorado Springs these last two days, and I notice how much it has improved since first I saw it, some five years ago. I honestly think it is one of the most delightful home cities I have visited on either side of the Atlantic."

During his stay in Colorado Mr. Gliddon will write a series of letters and articles for Campbell's Illustrated Weekly, of Chicago, for the Financial Review of London, and also several in French for L'Observateur of Paris. Mr. Gliddon left yesterday morning on a general tour of the State, during which he will visit all the well known mining camps and on his return will spend considerable time at Cripple Creek, where he will thoroughly investigate the entire district.

WEEKLY LETTER EXTRACTS.

In commenting on the mining situation last week, Broker M. Kinney says:

"There has been a marked improvement in the market of the past week, not only have prices advanced but the tone is better, a stronger, and more confident feeling is rapidly being established, and not at any time since the 'slump' has the market been so active. The stock market here has certainly been through a severe test, and although there has been a great shrinkage in values much good has been accomplished if in only two ways—in giving renewed confidence in Cripple Creek as a gold producing district, and in the way of putting a check to 'wildcat' stocks. It seems now that the 'slump' was the inevitable result of the reckless speculation indulged in last fall, when people thought they only had to buy, no matter what the stock or price was, to make a large profit, and when one considers the magnitude of the business at that time, when there were from a million to two million shares of stock sold here daily, there had to be, to say the least, a reaction. At present the stocks that are being traded in are at a 'bedrock' basis; the properties are valuable and the prices of the stock cheap and the advance in the market certainly points to the fact that investors are buying. Out of town orders are increasing and many are looking for a steady, though perhaps not rapid, advance. The stocks that at present are the most active are those that are dividend paying and the advance in the price of these stocks during the past week is noticeable. That they are being bought in view of an investment is without doubt, as the indications are that dividends of the several companies will steadily be paid in the future."

In their last weekly letter Messers. J. W. Proudfit & Co. say:

"It can but be astonishing to the investor in Eastern stocks and to Colorado mining shares to peruse the market letters of his brokers and follow closely the trend of speculation. There has not come for many weeks past a scintilla of cheering news concerning the future of Eastern speculative markets. Almost everything which money seeks in New York and Boston is tainted with perplexities of the disturbed political atmosphere. Domestics, which seemingly are far removed from any possible influence beyond the law of supply and demand, share with other stocks the depressed condition of frightened capital. While this is true, and it needs no reiteration or reminder here, how different is the aspect of the mining share market. It is always the greatest satisfaction to be able to advise one's clients of the success of investments, and there is complete pardon for self congratulation at the cheering and inviting condition of Colorado mining shares. Well might we urge, as repeatedly we have done, the purchase of Isabella, when as regularly as the directors meet, this company declares dividends. This directors' meeting occurs on the eleventh of each month, and last Monday the customary course was followed and a dividend of 1 cent per share declared. It requires careful search to discover anything approaching as profitable an investment as Isabella in the Eastern speculative markets. An income of 21 per cent. per annum is something to remark in these days of low rates of interest, yet that is what Isabella's shares represent. No inconsiderable thing is 500 worth of investment of but $500 brings in an income of $250 per annum in dividends, and this regardless of all prospect of advance in price of shares and so an additional profit to the investor. About 100,000 shares of this stock were sold during the present week, and instead of declining the price advanced from 53¾, the highest point reached in the week ending May 8th, to 55¾, the high mark of to-day. It is impossible to specifically state the Isabella situation in a market letter. We invite our clients to call on us for any particulars they may desire, which will always be cheerfully given; and the same invitation holds good in regard to all other active Colorado mining shares.

"We may be pardoned for entertaining a feeling of self-satisfaction that our persistent advice to purchase Isabella shares has so soon been justified by the course of the market."

The following is taken from the weekly letter of Messrs. Shove, Aldrich & Co:

"It is clearly evident that the tone of the market at present is better than has been the case since January last. Many of the stocks have gained in price, and the volume of trading upon all has increased materially. We anticipate bull movements of this kind for some little time to come. The market in its recent continued decline went to a lower figure than conditions justified, and it is now seeking a higher level. There are certainly some indications that a strong bull movement, such as occurred last August, is not impossible for the coming summer or early fall. The resumption of Portland dividends, the greatly increased trading in Elkton Consolidated, now that the company has assumed its position among dividend payers, the steady strength of Isabella, and the knowledge that the Cripple Creek district is again turning out an enormous amount of ore. All these things remind us of the conditions preceding last summer's activity.

The sharp advance in Isabella resulted, so far as we can see, from a strong demand for the stock at a time when there was but little on the market. We anticipate lower figures on the stock in the near future. There is no possible foundation for the rumor of an increase in the dividend. The gain in the price of Portland was but natural with the resumption of dividends, and a further gain may be expected when this dividend is increased. We are pleased to note advances in Consolidated, Favorite, Golden Fleece, Mollie Gibson, Union, Work, and others of this class of stocks. It is an exceedingly encouraging indication. We again remind customers that the tendency of the present time is toward investment stocks, and that in these stocks is to be found best opportunities for profit. Union, Isabella, Golden Fleece, Elkton Consolidated, and others of this class of stocks should be excellent purchases."

Current Notes.

A new hoist has been put in place on the Hoosier, located on the saddle between Tenderfoot and Globe.

A car load of ore will be shipped from the Last Chance the first of next week. It is high grade and expected to show very good returns.

The south lease on the Extenuate property on Squaw mountain shipped 10 tons last month and will be on hand again this month with a shipment.

Menvers Bros., lessees of the War Eagle, on Squaw mountain, have a 19-inch vein of talc at the bottom of their 65-foot shaft which assays $19.

In the C. B., located about 1,500 feet east of the Lucky Boy, the Victor Hugo company has recently opened a wide vein of $20 ore at a depth of 30 feet.

The Lost Annie, leased by Graham and Wheeler from the Portland, has recently put in an outfit of machinery and is now employing a force of 13 men. It has not shipped [illegible]

Dr. Milton of the Adams Mining company, has taken a lease and bond of the Fortuna claim, south of the city. The Fortuna is a patented property, but little development work has been done upon it. This lack of development will probably be remedied by the new lessee.

In the Monarch lease on the Orphan Boy, located north of the Buena Vista, on Bull hill, a rich chute has come into the shaft and the eight-foot vein is now carrying a considerable quantity that averages $300 to the ton. The property has been shipping for the past two months.

The Empress of Japan company, which was recently started in developing a group of properties lying at the head of Myers avenue in the town of Cripple Creek, will complete 100 feet of work by the last of this week and will then pay attention to exploiting the vein with drifts running both north and south.

Standley Bros., working the Ida B. on Gold hill, will let a contract to sink the shaft 100 feet from the bottom of the 127 foot level. The company is now taking out and shipping ore every day that runs $20 to the ton. A good body of ore is looked for near the 200-foot level, and the shaft will be sunk to this depth with the hopes of finding it.

A contract taken by D. W. Wing on the Metropole group of six claims, located east of Gillett near the Cripple Creek reservoir, is progressing in a manner very satisfactory to the owners of the property, Horace McPherson & Co. of Philadelphia. It is expected the vein which is known to exist on the property will soon be cut.

W. J. Darnell is sinking a shaft on the H. M. of the Argentum G. M. and M. company with two shifts. A lead was cut at 30 feet which is well defined and has solid walls. The shaft is now down 45 feet and as soon as a depth of 50 feet is attained a drift will be started. The claim is about one and one-quarter miles northeast of Gillett.

The following shipments were made Monday: Portland, 10 cars of high grade smelter ore; the Victor, four cars of high grade and six of cyanide ore, and the Vindicator four car loads. This shipment of the Portland is the first since the introduction of its new machinery. The Victor's shipments have been retarded by the condition of the roads, and ore has been accumulating at the mine.

The Great Western Gold Mining and Leasing company has just closed a deal for the Surprise tunnel and the Gold Cup lode, both of which are located on the north slope of Straub mountain. The consideration is stated to be $3000. The company also owns some silver, lead and copper properties in Chaffee county, near Salida, which are being developed. The company will begin work on its Straub mountain properties in the near future.

Red mountain, lying north of Spring creek and about four miles from Cripple Creek, has a property that has produced some ore of a galena character different from that usually found in the Cripple Creek district. Miners say that the lead-bearing veins of that section testify to an older mineral formation existing in this section, previous to the eruptive action which led to the deposition of the gold-bearing ore, peculiar to the recognized belt. The galena property in that section has produced some ore of pay grade and the company owning it is now preparing a plant of machinery and will work it for a mine.

A carload of machinery arrived at Gillett Friday for the Lincoln mine.

One swallow does not make spring, but one swallow of One Minute Cough Cure brings relief. Colorado Springs Drug Co.

The Woods Investment Co., 30 N. Tejon street, Colorado Springs. Office Cripple Creek district, at Hotel Victor, Victor, Colo. All Cripple Creek stocks dealt in. Three field men on the ground.

Eczema is a frightful affliction, but like all other skin diseases it can be permanently cured by applications of De Witt's Witch Hazel Salve. It never fails to cure piles. Colorado Springs Drug Co.

The Fullerton Consumption Cure.

Mrs. R. DeYoung, Middleburg, Iowa, writes: I have used One Minute Cough Cure for six years, both for myself and children, and I consider it the quickest acting and most satisfactory cough cure I have ever used. Colorado Springs Drug Co.

Notice of Annual Meeting.

Notice is hereby given that the annual meeting of the stockholders of the Gould Mining and Milling company, will be held at their office, room 5, Exchange Bank block, on Monday, the first day of June, 1896, at 10 o'clock a. m., for the purpose of electing directors for the ensuing year, and for the transaction of such other business as may properly come before such meeting.

You are further notified that upon the same day and at 2 o'clock p. m., at the same place there will be a special meeting of the stockholders of said company, to consider an amendment to the articles of incorporation reducing the number of directors of said corporation from nine to seven directors.

Books for the transfer of stock will close on May 27, at 4 o'clock p. m., and re-open two days after the final adjournment of the meeting.

Dated at Colorado Springs, Colorado, April 28, 1896.

orado Springs Board of Trade and Mining Exchange.

orado Springs, May 18.—The trading the week opened, fairly steady, al- gs not much was doing. Trades re- ed about [illegible] very small gains were recorded. Ar- um was up a little with sales of 100 s. Cripple Creek Consolidated and n were quoted higher, but had no fers. Orphan Boy figured for sales 00 shares at from 8¼ to 8½, which is ction higher than Saturday's quota- Work was also up somewhat with sactions to the extent of 1000 shares om 11 to 12½, while Union was off having sales of 1000 at 19¼ and 400 e prospective mines. Flower of the and Jack Pot were the only issues h, neither showing any change in In the prospects, Trachyte was a ite, having sales of 10,000 shares at 3 to 2½, the demand evidently com- from insiders. Little else was ac- lished in this department. The mar- losed easy.

EASTERN MARKETS.

NEW YORK STOCK MARKET.

New York, May 18. Money on call has been easy at 2@2½ per cent, last loan at 2½, and closing offered at 2½. Prime [illegible] Mexican dollars 73½. Sterling exchange is dull, with actual business in bankers' bills at $4.87½@4.87¾ for 60 days and $4.88½@4.88¾ for demand. Posted rates $4.88@4.89½. Commercial bills $4.86½@4.87¼. Government bonds lower; State bonds quiet; railroad bonds firm. Silver at the board was neglected.

During the early dealing at the stock exchange the market ruled weak. The engagement of $1,100,000 gold for shipment to Europe, all withdrawn from the sub-treasury, and the selling for foreign account estimated at fully 10,000 shares, due to the lack of positive knowledge of the position on the currency question of the leading Republican candidate for the Presidency, having depressed prices. The loss in the International issue was about a point in Louisville and Nashville. London sold nearly ten thousand shares of Louisville and Nashville and St. Paul, and local traders sold Manhattan and Sugar with more effect than usual. Manhattan broke 2 per cent, to 109½, the quarterly statement still exerting an unfavorable influence. The talk of a reduction in dividends on account of cable competition, however, did not receive general credence. Sugar weakened on the reduction of ½ in refined and on rumors of unfavorable developments in Cuban affairs. A firm with Washington connections was the most conspicuous seller of the stock, which fell from 125⅞ to 121⅞.

In the afternoon trading the market displayed more resistance and there was accordingly a disposition to cover short contracts. Reports were current that Congress would adjourn early in the coming month and this with the comparatively small engagements of gold for tomorrow's steamers, helped to make a little bullish sentiment. In the afternoon rally Manhattan, Sugar, Tobacco, Chicago Gas and Consolidated Gas were prominent. Consolidated Gas first declined from 155 to 153½, and later rose to 156. This decline in the stock was due to a report of an incorporation of a new corporation called the New York Fuel and Light company. In the late trading the market, which then was firm, the shorts being the most prominent buyers up to the close. Speculation left off firm with prices anywhere from ⅛ to ¾ per cent. higher on the day. Sugar lost ⅞ per cent, and Manhattan ¾ per cent. Total sales were 127,000 shares.

Bonds were higher to-day. The sales aggregated $944,000. Baltimore and Ohio 5's rose 2½ to 99; Northern Pacific firsts ⅝ to 119⅞; do reg. ⅝ to 116⅞; do collateral trust 6's, ½ to 91.

In government bonds $20,000 coupon 4's of 1925 sold at 116⅞, and $20,000 do registered at 117.

CHICAGO GRAIN.

Chicago, May 18.—The wheat market had ample room for improvement from a business point of view to-day and furthermore prices were not as favorable as they might have been to holders. After the posting of the visible supply figures, showing the slight and unimportant decrease of 854,000 bushels, there was a rush to sell which bore prices downward and imparted a weak and depressed feeling to the market. The activity was but temporary, however, not a great length of time being required to exhaust the offerings and supply and demand. The world's shipment for last week were reported at 8,700,000 bushels. An increase in the amount on ocean passage of 800,000 bushels was noted and the English visible supply decreased 1,366,000 bushels. The weather was satisfactory for the growing crops and few complaints were heard.

Corn took its tone from wheat. It is therefore understood that the feeling was not buoyant nor did prices make any gain, but, on the contrary, declined from the position occupied on Saturday. The visible supply decreased 1,154,000 bushels and the amount on ocean passage decreased 80,000 bushels. Receipts were fair at 330 cars and 335,000 bushels were taken from store. Liverpool cables were quiet and steady. Export clearances were fair at 63,201 bushels.

Oats declined on the weakness extended by wheat. There was some good trading by commission houses, which probably represented liquidation by "longs," who found no prospect for an advance and who were discouraged by the declining tendency of the other grains. The visible supply increased 38,000 bushels. Receipts were 272 cars and 30,846 bushels were taken from store. Export clearances amounted to 40,016 bushels.

CLOSING PRICES.

Wheat—May 69¾, July 61¾@61⅞, Sept. 62.

Corn—May 28¾, July 29¼, Sept. 30⅜.

Oats—May 18⅞, July 19¼@19⅜, Sept. 19½@19¾.

Pork—July $7.65, Sept. $7.82½.

Lard—July $4.65, Sept. $4.77½.

What! Not going East this Summer?

Burlington Route

Haven't you heard about the low rates to Chicago, St. Louis, Buffalo, N. Y., Washington, D. C., and a hundred other eastern cities by the Burlington? Better write to us about them.

Perhaps—after you've got our letter—you'll change your mind and go east after all.

On the Burlington's "Vestibuled Flyer" of course.

G. W. VALLERY, General Ag't, Denver.

Mayor's Proclamation.

The use of water for sprinkling lawns and gardens is prohibited in that part of the city lying south of Pike's Peak avenue and in ward 5, except between the hours of 12 o'clock noon and 1 o'clock p. m., and in that part of the city lying north of said avenue, including La Veraus and Colorado City, except between the hours of 5 o'clock a. m. and 12 o'clock noon.

Weather Indications.

Washington, D. C., May 18.—For Colorado, generally fair, warmer, variable winds.

See Ashby for wedding and birthday presents.

Mr. and Mrs. George W. Thorne of Wagon Wheel Gap are in the city.

There is now no office rent in the Gazette building on the second floor.

A marriage license was issued yesterday to Lemuel Stallings and Mary Haughian both of Victor.

The county commissioners moved into their new offices yesterday, which are convenient and neat in every way.

Miss Evelyn McCollas, well known in this city, is reported dangerously ill at the Auditorium hotel, in Kansas City.

The district attorney yesterday filed four suits in the County Court to recover on criminal bonds that had been forfeited.

Mr. M. A. Connor has been appointed bailiff in the County Court in place of Al Cree, who has been elected marshal at Manitou.

Mr. and Mrs. A. May pleasantly entertained a party of their friends last evening, the occasion being their tenth wedding anniversary.

A branch of the society of Colonial Dames, similar in its nature to the Daughters of the American Revolution is to be organized here.

The death is reported of Frankie, the 6-year-old son of Mr. and Mrs. L. C. Weyand, and of Jay, the 5-yearold son of Mr. and Mrs. M. S. Herring.

Mr. T. B. Harbison of this city was elected State councellor at the annual meeting of the Junior Order of American Mechanics in Canon City last week.

A suit for divorce was filed yesterday in the District Court against Hewig Kertcebom from Edward B. Kertcebom, on the grounds of cruelty. They are from Victor.

There are now about 250 men at work in the shops at Colorado City, the largest in years, and a great deal of work is being done. All of the cars are being put in shape.

Manitou lodge, No. 11, I. O. O. F., will give a dance this evening at Wheeler hall. Quite a number are going over from here and a car is to be held until 2 a. m. for them. Tickets are $1.

Emery's photo studio has been made more attractive with paint and paper and by the addition of several new backgrounds and accessories for the embellishment of photographic productions.

At the High School this afternoon another of the talks by county officers will be made to the students of the High school. Mr. Grafton will tell them of the work of the county school superintendent.

Dr. Gregg will lecture before the Senior class of Colorado college on the subject of "The Ethics of the Old Testament" this afternoon at 3 o'clock. The lecture will be given in the Observatory and the public is invited to attend.

Regular meeting of Pike's Peak camp No. 5, Woodmen of the World, this evening at 8 o'clock sharp. There are six candidates to be initiated. Several new applications are to be acted on, and election of officers. All members are requested to be present.

A delegation of the members of the Western Federation of Miners which has been in session in Denver the past week, called on the Governor on Saturday and petitioned for a pardon for Robert Lyons, charged with blowing up the Strong mine and now in the penitentiary.

Mrs. W. A. Pratt, wife of the Unitarian minister, was at Sabetha, Kan., yesterday, where the cyclone did so much damage. She was visiting her brother, Dr. Roberts, whose home was only two blocks from the Rock Island depot which the reports say was destroyed. Mr. Pratt had a telegram last evening saying that she was safe, however.

Next Wednesday afternoon at the Athletic park the Colorado college and the High school will have a track contest. The contest promises to be very interesting and will include all kinds of track work. Tickets are 25 cents and the games begin at 2 o'clock. They will be very interesting and the friends of both will be there to cheer them on.

The committee appointed to consider the matter of a celebration for the 25th anniversary of the founding of the city met last night. President Slocum was elected chairman and Mr. G. H. Parsons, secretary. After discussing the matter, another committee, consisting of President Slocum and Mr. W. C. Frost was appointed to bring in suggestions to be acted upon at a later time.

At the Coliseum this evening the Pearson Stock company will play "The Land of the Midnight Sun." The company brings a full line of scenery and a strong company. It is ladies' night and ladies are admitted free. Tickets can be secured up to 7 p. m. to-day. To-morrow afternoon and evening the company will present "The White Squadron." Night prices are 10, 20 and 30 cents. The matinee prices are 10 and 20 cents.

Mr. J. A. E. Paine, a second cousin of Charles Stockbridge, who has been visiting him for the past week, left for the east last night on his way home. Mr. Paine is manager and director of the Geo. Wostenholm & Son I. X. L. cutlery works at Sheffield, Eng., where he makes his home. He has been traveling in the larger cities of this country for the past three months and expresses himself as much pleased with America, and comments most favorably on the development of this vicinity since his last trip here, six years ago.

Mrs. F. Foley who is running the rooms in the McKeehan block, at 118 South Tejon street, has leased, through W. E. McLaine's real estate agency, the upper floor, consisting of 27 rooms and two baths, of the Clyde block, being built on the corner of Nevada avenue and Huerfano street, by J. Arthur Connelland is to have them ready by October 1st. The flat will be furnished with steam heat, electric light and modern improvements. Mrs. Foley will completely furnish the flat with everything new and of the best that can be obtained. The place will be known as "The Clinton."

We will rent you new 1896 wheels at usual rates. C. H. Bennett, 116 Pike's Peak ave.

Awarded Highest Honors World's Fair.

Checking Up.

After the prescription is carefully studied: after all the ingredients have been placed in your bottle—then we "check up" carefully review the quantities we have weighed and measured, and examine all the boxes or bottles from which drugs have been taken, to see that no mistake has been made.

We do this with all prescriptions and take time to do it thoroughly.

You want all your prescriptions filled that way, do you not?
